THE ANNUAL COMMUNICATION
OF THE
EXECUTIVE COUNCIL
TO THE
1940 CONVENTION OF PSI UPSILON
HELD UNDER THE AUSPICES OF THE
EXECUTIVE COUNCIL AND THE SIGMA CHAPTER
PROVIDENCE, RHODE ISLAND
JUNE 20, 21 AND 22, 1940

The Executive Council heartily welcomes the delegates of our twenty-seven Chapters to this Convention held in the one hundred and seventh year of our Fraternity.

All members of Psi Upsilon join with us in congratulating our hospitable host, the Sigma Chapter, upon having attained its one hundredth birthday, but most of all upon a record of outstanding achievement throughout the past one hundred years of which the Sigma and all members of the Fraternity may indeed be proud.

We are deeply grateful to the undergraduates, alumni and Convention Committees of the Sigma for the generous arrangements announced for our entertainment, and for the thoughtful attention given to each detail likely to promote the success of this Convention.

We are likewise greatly indebted to Brown University, to its President, Dr. Henry M. Wriston, and to its Board of Trustees, for the gracious hospitality shown to us and for making available to our delegates its buildings and facilities.

CHAPTER VISITS:

Since our last Convention, in addition to several unofficial visits, the following seven official visits have been made by members of the Executive Council:

Epsilon.....	Henry N. Woolman
Iota.....	Henry N. Woolman
Phi.....	Benjamin T. Burton
Xi.....	Edward T. Richards

PSI UPSILON FRATERNITY

In addition, pursuant to General Resolution No. 3 of the Convention of 1939, under appointment by the Executive Council, Brother Gordon B. McLaren, Nu '13, made an official visit to the Zeta Zeta Chapter.

THE CONDITION OF THE FRATERNITY :

In general our chapters continue to be capably managed. Their business affairs are well conducted. Alumni cooperation is welcomed and cheerfully given by graduates of ability. The usual high quality of our undergraduate membership is being maintained. Moreover, Psi Upsilon continues to fulfill a useful place in the educational system and to build lasting loyalty in its members by developing in them a conscientious approach to the tasks of the college curriculum, higher qualities of character and manhood, and increased capacity for sincere and loyal friendship—all of which should lead to greater happiness and higher attainments in later life. For a number of years, better chapter administration has been promoted and interchapter friendships stimulated by annual informal conferences held by various chapter-groups. At these conferences numerous chapter-problems have been discussed and the favorable experience of one chapter has been available to others.

Unfortunately, however, during the last year scholastic records have in a number of our chapters not measured up to the general intelligence of their membership. Reports of scholastic standings of various fraternities have been received from a number of colleges and universities. Certain of our chapters are still doing outstandingly well. Nevertheless, entirely too many of our chapters rank near the foot of the scholastic list. In some cases this problem is already being aggressively attacked both by undergraduates and by alumni and steady progress is being achieved. We urge upon all chapters constant attention to conscientious efforts to improve scholastic rating.

THE ALUMNI ASSOCIATION OF PSI UPSILON :

During the past year the officers and Board of Governors of the Alumni Association of Psi Upsilon have unselfishly given of their time and efforts to further the interests of the Fraternity. In many ways the Association has usefully supplemented the efforts of the Executive Council.

The annual meeting of the Alumni Association will take place at 3:30 P. M., June 21, 1940, at the Sigma Chapter House and it is urged that as many as possible of the alumni present, as well as members of the Class of 1940, attend.

PETITIONS :

The Executive Council has no petition for a charter to submit to the Convention. Nevertheless, attention is called to the fact that an active and large group of alumni in southern California have expressed keen interest

RECORDS OF THE CONVENTION

in the establishment of a separate chapter of the Fraternity at the University of California at Los Angeles. No specific group at that university, however, has as yet received their backing.

THE CONSTITUTION :

After some unexpected delays the reprint of the Constitution of the Fraternity with all amendments to date, which was mentioned in last year's communication from the Executive Council, was completed, and all the members of the Council certified as to its authenticity. Distribution will be held up until our chapters reassemble in the autumn. It is expected that these new volumes will greatly assist chapter officers in following constitutional requirements.

One further amendment to the Constitution seems desirable. There are living three former Presidents of the Executive Council—Earl D. Babst, Iota '93, Archibald Douglas, Lambda '94, and Edward L. Stevens, Chi '99. Service as president of the Council of necessity creates an intimate knowledge of Psi Upsilon's affairs and gives a broad experience in meeting a multitude of fraternity problems. In order that all ex-presidents of the Executive Council may be encouraged to attend Council meetings, and their knowledge and experience may be more readily available, the Executive Council recommends that Article II, Section 6, of the Constitution be amended so that in addition to the fifteen elected members of the Executive Council all present and future ex-presidents of the Executive Council shall be life members of the Council, with full voting rights.

THE DIAMOND :

Brother Oliver D. Keep, Delta Delta '25, a member of the Advisory Committee on The Diamond and an experienced publisher, unselfishly volunteered to serve this year as Acting Editor of The Diamond, and John A. Cooper, Delta Delta '39, has served as Assistant Editor.

During the year much study was devoted to the form, set-up and contents of The Diamond with the object of giving to the Fraternity as well-published a magazine with the most interesting contents as the funds available for publication make possible. The result has been a magazine which reflects much credit on Psi Upsilon. Brothers Keep and Cooper have devoted many hours to this effort and deserve the hearty thanks of the entire Fraternity.

THE ARCHIVES :

Since the last Convention the many valuable and interesting papers and documents which go to make up the archives of the Executive Council, and which cover the greater period of the Fraternity's existence, have been removed from storage in Brooklyn and neatly assembled in a modernly-

equipped archives room adjoining the office of the Executive Council in New York City. Moreover, a methodical index of these documents has been prepared and is being maintained

Practically all the labor involved in accomplishing this effort has been contributed by our indefatigable archivist, Peter A. GaBauer, Pi '25. Acknowledgment, however, should be made of personal gifts from Earl D. Babst, Iota '93, and Walter T. Collins, Iota '03, which, added to funds allocated by the Executive Council, made possible this result.

Finding that there were on hand more copies of old editions of catalogues of the Fraternity than the Executive Council required, extra copies of all such catalogues on hand were distributed to libraries of various colleges and universities and other reference libraries desiring to receive them. In this way insurance has been obtained for the preservation of the records of our Fraternity in future years.

THE SECOND EPITOME :

An active working committee of prominent alumni have made real progress in compiling the material for our second epitome. Real cooperation is now being obtained from chapters which have not heretofore prepared and sent in their histories. There is, therefore, promise that this task may be completed within the near future.

THE NATIONAL INTERFRATERNITY CONFERENCE :

For many years Psi Upsilon has not been a member of the National Interfraternity Conference, although during the last few years the Conference has voluntarily supplied to the Executive Council a great deal of the information and material distributed to its members. Much of this is of a character that is distinctly helpful.

The taking out of membership by Psi Upsilon in the National Interfraternity Conference has received considerable study. Although at first hesitant, after carefully weighing the subject, the Executive Council has concluded that it would be to the advantage of Psi Upsilon to become a member of the Conference provided Alpha Delta Phi also joins the Conference and Delta Kappa Epsilon continues to maintain its membership. The Executive Council, therefore, urges this Convention to go on record as favoring such action.

In joining the National Interfraternity Conference Psi Upsilon retains its independence of decision in managing its own affairs. The Conference is merely advisory in character. The cost of membership is only \$50 per year.

The coming years are likely to bring many problems to college fraternities. The National Interfraternity Conference provides a medium through which on behalf of all fraternities these problems may be discussed with college authorities and the fraternity viewpoint presented. The absence from membership of such fraternities as Psi Upsilon and Alpha Delta Phi

PSI UPSILON FRATERNITY

is reported to have proved a distinct handicap to the officers of the National Interfraternity Conference in efforts intended to benefit all fraternities. As a long range proposition it is believed wise to work with the other fraternities and to have a voice in shaping policies and activities which may well affect our own future. For the information of the delegates, the Executive Council of Alpha Delta Phi has arrived at a similar conclusion .

THE EXECUTIVE COUNCIL :

With this Convention the terms of Brothers Benjamin T. Burton, Edward T. Richards and R. Bourke Corcoran expire. It is, therefore, incumbent upon the Convention to elect to the Executive Council three brothers for the usual terms of five years each.

During the year, the Executive Council has elected to its membership to serve out the balance of the term of Cadwallader Evans, Jr., Eta '01, which expires with the Convention of 1942, Herbert Judson Flagg, Theta Theta '12. Brother Flagg was one of the charter members of the Theta Theta and his interest in the chapter and in Psi Upsilon has continued through the years following his graduation. We are indeed glad to have him among our number and thus to increase representation on the Council of our West-Coast chapters.

It is with deep sorrow that the Executive Council reports to the Convention the death on March 18, 1940, of Brother Henry Hill Pierce, Kappa '96. Brother Pierce served as a member of the Council from November 1933 to December 1938, at which time he resigned. Before his election to the Council Brother Pierce had brought distinction to Psi Upsilon by his outstanding professional and business achievements which in and of themselves testify to the high order of his abilities, the charm of his personality and that fineness of character which brings respect from fellow men. In his years of service on the Council he earned the affection and admiration of his fellow members.

1941 CONVENTION :

It is incumbent upon this Convention to fix the meeting place of the 1941 Convention. Unless otherwise determined, pursuant to Article II, Section 2, of the Constitution, it would become the privilege in regular rotation of the Lambda Chapter to act as host.

We call your attention, however, to the fact that the Gamma Chapter, which next year celebrates its centennial, has requested that the 1941 Convention be held with it, and that the Convention of 1939 recommended to this Convention that the Gamma's request be granted. The Executive Council joins in this recommendation.

GENERAL :

We are living in days of sweeping world events, the ultimate effect of which stagger one's imagination. Ideals of human conduct, of life and of

RECORDS OF THE CONVENTION

religion which we hold dear are being challenged, and we are being scoffed at for holding them. It is in such times that organizations like Psi Upsilon, which seek to foster human fineness, can attain their greatest usefulness. We urge our undergraduate brothers to maintain cool, clear thinking heads and resolute hearts and to concentrate on doing well their daily tasks in preparation for that which the future may hold in store. Whatever that may be, we are confident that our brothers have the ability and the courage to play their part as men and gentlemen, and that since no nation can long control the modern world by force, days will again dawn when relationships between men and nations will be governed by the spirit of peace and goodwill.

Respectfully submitted,

THE COMMITTEE OF THE EXECUTIVE COUNCIL OF PSI Upsilon
ON THE ANNUAL COMMUNICATION TO THE 1940 CONVENTION.

EXECUTIVE COUNCIL OF PSI UPSILON FRATERNITY

REPORT OF THE TREASURER

1940

There is presented herewith a comparative statement of the net worth of the various funds of the Fraternity held by the Executive Council as of April 30, 1939 and 1940. A list of investments held in the General Fund, the Bridgman Fund and the Diamond Life Subscription Fund, showing the cost and market value, is also presented.

It is to be noted that a new fund has been created this year, namely the Diamond Life Subscription Fund. Into this have been paid all the \$15 Diamond life subscriptions. The money has not been spent in defraying Diamond expenses as was the case heretofore in respect of the \$10 Diamond life subscriptions, but has been placed in a reserve fund to be used only on an annuity basis to provide for the costs of the life subscriptions for the brothers who have paid the \$15 life subscriptions. This is a sound policy, and a great improvement over the previous unsound practice of disbursing the life subscription funds in payment of present-day costs. The difficulty with the new method is that we will be hard pushed to meet our current printing and other Diamond costs. Thus in the current Diamond Fund there was a deficit of \$2,528.65 in the past fiscal year, offset to the extent of \$1,200 by transfers of \$1,000 from the Bridgman Fund and \$200 from the General Fund. Until the annuities derived from the Diamond Life Subscription Fund reach substantial proportions it will be necessary to draw from the General Fund and the Bridgman Fund each year to meet the current Diamond expenses.

The cash position of the Fraternity continues favorable. All accounts receivable were collected between April 30, 1940 and June 15, 1940. The unrealized loss on investments held in the three investment funds as of April 30, 1940 was \$9,368.87, in comparison with \$11,006.47 the previous year. This bad situation has existed for a number of years, and while it would have been possible to write down the value of the securities to market and take the loss on the books, such action has not been taken but rather investments have been made with a view to a possible eventual elimination of this loss. If investments were carried in the statement at market value instead of at cost, the aggregate net worth of the funds of the Fraternity would work out as \$35,174.20 as of April 30, 1940.

The income and expense accounts of the various funds are self-explanatory. It will be noted that \$396.64 was spent on the printing of the new
