Seattle — Convention '86

SUMMER 1986

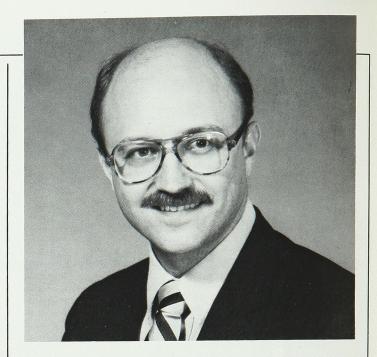

From An Owl

We are about to celebrate the Seventieth Anniversary of the Theta Theta Chapter at our 143rd Convention to be held in Seattle, Washington, from August 20-24, 1986. I hope that you will plan to attend as much of the Convention as you possibly can, particularly those of you who live in the Pacific Northwest. Even if you don't live in the Pacific Northwest, this is a rare opportunity to see that lovely area of the country *and* to participate in Vancouver, British Columbia, Canada's Expo 86 (and visit our Zeta Zeta Chapter at the same time).

Conventions play an extremely important part in the business of our Fraternity. This year we will be focusing on a variety of matters that are of crucial significance to our members and Chapters. I am certain you will recall my discussion in the last version of this column about the liability crisis and risk management. Since that column, I am also certain that you have seen in your local newspaper, in the national news media, on television and in other publications of organizations to which you belong extensive coverage of this problem and the various attempts to seek its solution. Our focus at the Convention will be two-fold: (1) to explain the current liability crisis and the efforts that are being made to assist the interfraternity community in assuring that insurance coverage is available for risks that must be covered; and (2) to provide our Chapters and their alumni organizations with much more detailed information about how they can go about "managing the risks" that face them every day, including house maintenance, alcohol age limits, drug abuse, and potential "hazing" incidents, as well as financial management. We hope that the workshops that we plan to present will assist our Chapters and alumni organizations to do their part to deal with this very serious situation. We are particularly fortunate to have as our primary speaker Brother Jim Swanke, Rho '80, who has been involved in risk management since his days at the University of Wisconsin but who is also deeply involved in the interfraternity movement's efforts to deal effectively with the liability crisis. We all look forward to working with Jim in this critical area.

The Convention is, of course, also the primary business event of the Fraternity's year. We will address our budget for the 1986-1987 fiscal year; the continued implementation of the Fraternity Education Program; elections for the Executive Council, the Alumni Advisory Board, and the Undergraduate Advisory Board; a constitutional amendment to complete our reorganization of the last few years; and important reviews of the status of a number of our Chapters to determine where the Fraternity's resources may best be utilized during the coming year to assist our Chapters. These business matters will not constitute our only activities, however; a well-planned schedule of social activities and time for attendees to be "on their own" are included in the agenda. Come and join us!

The second item on which I would like to report is the establishment of the Fraternity's Long Range Planning Committee. This Committee was mandated by the Executive Council at its meeting held last December in Washington, D.C. Two items of critical importance will be taken up by this Committee as its first orders of business — future Convention planning and planning for the selection of an Executive Vice President at some future time. Other items will be considered upon completion of these two important matters.

We are rapidly approaching a time when our traditional method of selecting sites for conventions, i.e., based primarily upon the anniversary of the founding of a Chapter, will create some serious and controversial competition among our Chapters. The Committee will be looking for new approaches to both the selection of sites for conventions and the timing of selection to insure better planning and obtaining the best possible accommodations at the most reasonable price.

Finally, the Committee will also be seeking to recommend to the Executive Council an appropriate and wellthought out process for the eventual selection of a successor to our longtime Executive Vice President. We do, of course, hope that our current Executive Vice President will not depart soon. However, the Fraternity has never had such a lengthy period of service by an Executive Vice President and has thus lost much of its expertise in seeking a new one. Brother Poor has volunteered to be intimately involved in helping to develop a process that will not only provide an orderly method of seeking a successor that can be implemented at the appropriate time but also allow us to begin to develop a pool of potentially interested brothers which may increase or decrease in size over time but which will provide a solid base for reasonably fast decision-making when the critical time arrives.

In the next issue of the *Diamond*, we will begin printing the schedule of future Executive Council meeting dates and places for this coming year as well as information about Divisional and Regional Conferences, the annual convention for next year, and local alumni organization activities. Our hope is that this information will provide you with sufficient advance notice that you may be able to join us at one or more of these events.

In the meantime, I hope your summer has been relaxing and enjoyable. See you at the Convention!

Yours in the Bonds, William R. Robie William R. Robie President Epsilon Omega '66

Fraternity News From Across the Continent

WHO TROD ITS HALLS OF YORE . . .

(Providence, RI) On Saturday, April 19, twenty-one undergraduates of the Sigma Owl Club at Brown University were initiated into the bonds of Psi Upsilon, marking the rebirth of the fourth jewel of our order's crown. Over one hundred brothers from eleven Chapters joined to welcome the Sigma back to the ranks of active Chapters. William R. Robie, Epsilon Omega '66, President of the Executive Council, conducted the initiations and served as master of ceremonies at the banquet which followed the ceremony. Henry B. Poor, Gamma '39, Executive Vice President, and Thomas L. Phillips, Omicron '85, Field Director, presented letters of greeting and gifts from various Chapters and alumni associations. The greatest news of this festive occasion, however, came from the Sigma undergraduates, who announced that Brown University had named Psi Upsilon the outstanding fraternity on campus. Quite an accomplishment for a year-old Chapter!

AND TREAD THESE HALLS ONCE MORE . . .

(San Francisco, CA) Only two short weeks after the reactivation of the Sigma, the posh Bohemian Club was the setting for the formal initiation of sixteen men into the Epsilon Chapter, thereby ending the fourteen-year absence of Psi Upsilon at the University of California-Berkeley. An air of celebration and good fellowship pervaded the ceremony and spilled into the reception and dinner which followed. Master of Ceremonies Henry B. Poor, Gamma '39, Executive Vice President, presided over the festivities with his usual grace and presented the Chapter with numerous letters of greeting. On behalf of the Fraternity, Matthew W. Clary, Theta Theta '85, presented Paul M. Celli, Epsilon '86, undergraduate president, with such gifts as a gavel, stationery, an embossed guest book, a bound copy of the Constitution, and a Psi U flag.

TOGETHER AGAIN

(Medford, MA) The Zeta Tau Chapter at Tufts University has not had an easy year. The small rental property which they had called home for four years was not made available to them for the 1985-86 year. thus forcing the brothers to scatter about the campus. But a house does not a fraternity make, right? They continued to meet regularly; they organized an effective membership recruitment program and were rewarded with surprisingly good results; they continued their campus involvement, both as individuals and as a Chapter (one of their members will serve as President of Tufts' Interfraternity Council this year); and they planned for the future. That planning paid off with the acquisition of a temporary home in a three-story townhouse adjacent to the Tufts campus. The Zeta Tau hopes to obtain permanent University housing by 1987, but in the meantime they are happy to be together at 165 College Avenue.

STILL GOING STRONG

(Amherst, MA) When the Amherst College administration mandated in 1984 that fraternities could no longer live in their houses or meet or hold functions anywhere on campus, it seemed like a death sentence for our almost 150-year-old Chapter. But, happily, such has not been the case. The Gamma Chapter is alive and well, although operating under much different conditions. This spring the Gamma Corporation purchased a modest house near the Amherst campus so that the Chapter would have some place to meet and hold social functions (it will not be used as a residence). Furnishings and Psi U memorabilia will come out of storage to make the Gamma's new home complete.

ANOTHER OMICRON?

(Paoli, PA) The Executive Council is pleased to announce the appointment of David H. Rank, Omicron '86, as a Field Director on the Fraternity staff for 1986-87. Dave brings with him to this post a significant list of accomplishments. Hailing from Park Forest South, Illinois (suburban Chicago), Dave attended Crete-Monee High School, where he was class president. He also was very active in the school's outstanding music program, both in production and performing.

Upon graduation Dave enrolled at the University of Illinois. Following in the Rank family tradition, he pledged the Omicron Chapter, joining older brothers Chris, Omicron '84, and Jim, Omicron '85. Almost immediately he immersed himself in Chapter operations, serving variously as first vice president, second vice president, and social chairman. He very capably led the Omicron Chapter to the finals in the Atius-Sachem Fraternity/Sorority Sing, quite an impressive feat at the University of Illinois. In addition, Dave found time to participate on several intramural sports teams and in the Chapter's philanthropic endeavors.

Dave Rank's experience within Psi Upsilon, however, is not limited to his own Chapter. As the Omicron's official delegate at the 142nd Convention and as Chairman of the Chapter Status Committee, Dave gained significant knowledge about the workings of the Fraternity and its Chapters. He was elected by his region as a representative on the Undergraduate Advisory Board for 1985-86 and by the UAB as its secretary.

The University of Illinois also benefitted from Brother Rank's involvement. Active in the Student Senate, he also sat on the Senate Committee on Discipline. His participation in the IFC included serving on its Judicial Board. All of this, and Dave still managed to distinguish himself as a Dean's List student in the University's challenging liberal arts history program.

Brother Rank eventually hopes to pursue a career in government, but for now Psi Upsilon is indeed fortunate to have him as a representative of our Fraternity. Dave joins Tom Phillips, Omicron '85, who is beginning his second term as Field Director. Yes, two members of the Omicron will now serve on the Fraternity staff! Matt Clary, Theta Theta '85, will be leaving to enroll in graduate business school after a highly successful year.

FOUNDATION AWARDS 1986-87 SCHOLARSHIPS

It is with great pride and pleasure that The Psi Upsilon Foundation, Inc. presents the worthy recipients of 1986-87 scholarship grants. Representing 19 Chapters, the 30 deserving recipients have been awarded grants totaling \$22,700.

The Foundation has undertaken numerous worthwhile projects in recent years, but none is as rewarding as its scholarship program. From very modest beginnings in 1959 (one grant of \$30), the program has grown dramatically, both in the number of grants and the amount of each award. The Foundation proudly boasts that the largest percentage of its earned income is granted to undergraduates for the purpose of assisting them in their educational pursuits.

Congratulations to the worthy recipients, all of whom display unquestioned integrity and strength of character, sound academic standing, participation and leadership in campus activities, and willingness to accept responsibility in Chapter affairs.

FRANCIS C. HARDIE, Omicron-Zeta '18 Awards

A generous benefactor of Dartmouth College, the Zeta Chapter, and The Psi Upsilon Foundation, Inc., Brother Hardie was the Executive Vice President of the United States Steel Corporation.

S EATTLE, WASHINGTON. Home of the University of Washington and our Theta Theta Chapter. Site of the 143rd Convention of Psi Upsilon Fraternity.

Undergraduates and alumni from across the United States and Canada will gather from August 20 through 24 on the University of Washington's beautiful campus to partake in this event. You, too, are invited. Come be a part of Psi Upsilon's history. Renew old friendships. See where Psi Upsilon is today and where it is going. Help chart the course for the Fraternity.

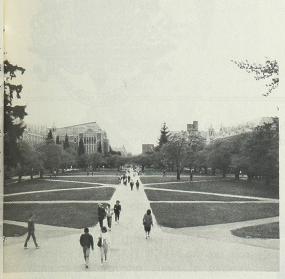

Besides the traditional elements of a Convention — workshops, standing committee meetings, legislative sessions, seminars, special presentations — there will be numerous enjoyable social events, including Friday evening's Emerald City Cruise through the Puget Sound and Lakes Washington and Union. Evening open houses hosted by the Theta Theta Chapter at their lovely home will provide an excellent opportunity for informal interaction.

The highlight of the Convention, however, should be the closing banquet on Saturday evening at the Seattle Hilton. It will be the culmination of four days of hard work and good fun, and the spirit of brotherhood should be at its highest. John B. Fery, Theta Theta '53, Chairman of the Board of Boise Cascade, will be the featured speaker.

Sound interesting? For more information, please write or call the Fraternity office at Two Station Square, Paoli, Pennsylvania 19301, 215-647-4830. See you in Seattle!

Many, many thanks to Kevin D. Lum, Phi '79, for his design of the 143rd Convention logo seen on this page. Brother Lum based his design on artwork produced by the Indians native to the Pacific Northwest so that it would reflect the heritage of the area Psi Upsilon will be visiting.

Robert O. Anderson Omega '39

Robert O. Anderson, Omega '39, former chairman of the board and chief executive officer of ARCO, has been elected to the United States Business Hall of Fame. He joins such other Psi U notables as R. DeWitt Wallace, Epsilon '14, founder of READER'S DIGEST; Thomas J. Watson, Jr., Sigma '37, former chairman of the board and chief executive officer of IBM; Arthur V. Davis, Gamma 1888, former chairman of the board of ALCOA; and Cornelius Vanderbilt, Beta 1895.

Neil E. Brenneman, Pi '54, president of Ellis, Loreland & Ellis, Inc., a central New York insurance agency, is serving his second term as secretary-treasurer of United Way of Central New York, Inc. In addition, he is a trustee of the Pi Chapter, a member of the board of directors of the Central New York Association for the Hearing Impaired, and a past president of United Cerebral Palsy.

Leonard H. Clark, Pi '43, is manager of corporate advertising and public relations for SPG Technologies, Inc. in Newtown, Pennsylvania. William S. Cohen, Kappa '62, Republican Senator from Maine, has collabo-

rated with Democratic Senator Gary Hart on DOUBLE MAN, an espionage novel which took them four years to write. Both served on the Senate Select Committee on Intelligence, where they learned a

William S. Cohen Kappa '62

great deal about covert operations and government-sponsored terrorism. Drawing on that knowledge, they include many real characters and events in the novel.

Thomas R. Forbes, Upsilon '33, is E. K. Hunt Professor Emeritus of Anatomy, Senior Research Scholar in the History of Medicine, and Advisor in Yale Medical Memorabilia at Yale University. He also is the author of SURGEONS AT THE BAILEY and the editor of THE ADMIRABLE SECRETS OF PHYSICK AND CHYRURGERY.

Jorge L. Freeland, Phi '83, graduated from the University of Texas School of Law in May. He has accepted a position with the Houston office of Mayer, Brown & Platt and will begin work in September. His practice will include corporate, securities, and banking law.

Alfred L. Ginepra, Jr., Lambda '55, is assistant executive director and director of public relations for USO-Los Angeles Area, Inc.

Michael S. Greenstein, Pi '70, is editor in chief of THE SYRACUSE NEW TIMES, an "alternate local paper" in Syracuse. He holds both a bachelor's and master's degree in journalism from Syracuse University and has won writing awards from both the Syracuse Press Club and the Syracuse Advertising Club. He also is a free-lance writer and part-time instructor at Syracuse University and LeMoyne College and an adjunct professor of the Syracuse School of Music in the College of Visual and Performing Arts.

W. Stacy Keach, Epsilon '63, can be seen on television this year in the lead role on the MIKE HAMMER series. A veteran of many movies, he recently starred in the made-for-TV film MIS-TRAL'S DAUGHTER.

W. Stacy Keach Epsilon '63

Andrew M. Kerstein, Delta '76, has joined the Beneficial Insurance Group, Inc. in Peapack, New Jersey, as senior vice president and chief actuary. Prior to joining Beneficial, Brother Kerstein held the position of executive vice president of United Pacific Life. Before that, he was senior vice president and chief actuary for Charter Security Life Insurance Company.

Brother Kerstein, a member of the American Academy of Actuaries, is treasurer of The Psi Upsilon Foundation, Inc.,

Andrew M. Kerstein Delta '76

treasurer of the Delta Corporation, and a member of the Executive Council.

Robert W. Leberman, Pi '54, is director of development and public information for The Jackson Laboratory in Bar Harbor, Maine.

J. Terence MacAvery, Psi '72, is a tax partner with KMG Main Hurdman's New York office. He holds a B.A. in Economics from Hamilton College, a J.D. from Albany Law School, and an M.S. in Accountancy from N.Y.U.'s Graduate School of Business Administration. Brother MacAvery is an attorney, admitted to practice in New York in 1976, and a certified public accountant, licensed in New York in 1979.

Brother MacAvery has been exposed to a wide variety of personal and business client tax matters, including personal financial planning, complex consolidated returns, mergers, acquisitions, and other business problems. He is a member of the tax division of the AICPA, the New York State Society of CPA's, the American Bar Association, and the New York State Bar Association.

Jeffrey A. Marx, Epsilon Omega '84, recently won the 1986 Pulitzer Prize for investigative reporting for his (with Michael York) two-part series in the LEX-INGTON (Kentucky) HERALD-LEADER on alleged improper payments in the Kentucky basketball program.

Boyd McDowell, II, Pi '47, recently was the recipient of Elmira's Distinguished Citizen Award. Since 1976 he has been president of the Chemung Canal Trust Company, the area's oldest and largest independent bank. The award was presented on June 9, 1986, at a large community dinner sponsored by Sullivan Trail Council, Boy Scouts of America.

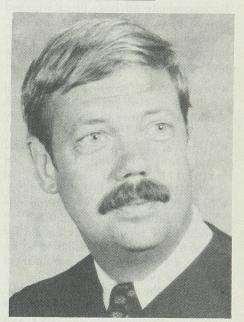

Robert M. Phillips, Zeta '60, recently was named president and chief operating officer of Chesebrough-Pond's Inc. He has been executive vice president since he rejoined the company from Clairol last May after Chesebrough acquired the Stauffer Chemical Company. Brother Phillips will be responsible for daily operations at Chesebrough, which is based in Westport, Connecticut.

Mr. Phillips started at Chesebrough in 1968 as a brand manager for Pond's products and handled several marketing positions before he became president of the health and beauty products division in 1975.

In 1979, however, he left under good terms to enter a joint venture with Nabisco Brands Inc. to sell music cassettes to supermarkets. In 1981 he joined the Clairol division of the Bristol-Myers Company and three years later was named president of Clairol.

A native of Montclair, New Jersey, Brother Phillips was graduated from Dartmouth College and earned an M.B.A. from Columbia University.

J. Leo Rayhill, Psi '49, is in his twentyfourth year of broadcasting on WCNY-FM in Syracuse. His program, "Sounds of Jazz," also is carried by five other National Public Radio affiliates.

Frederic B. Rodgers Gamma '62

Frederic B. Rodgers, Gamma '62, who serves as municipal judge for the towns of Empire and Idaho Springs, Colorado, recently was elected president of the Colorado Municipal Judges' Association.

EXECUTIVE COUNCIL MEETINGS

The fourth meeting of the 1985-86 Executive Council took place on Friday, April 11, at the New York University Club. Attendees included members of the Undergraduate Advisory Board who had arrived early for their spring meeting, scheduled to begin early the next morning. Among the topics discussed at the meeting were the following:

- Report on the progress of a financial policies manual presently being developed to insure that the Fraternity maintains sound fiscal practices.
- Approval of a nine-month financial statement showing receipts of \$187,171.37 and expenses of \$205,814.99, for a deficit of \$18,643.62.
- Report of outstanding Chapter assessments in the amount of \$22,076.
- Preliminary report on the budget for 1986-87, including a resolution to include a \$10,000 surplus to help meet cash flow problems.
- Report of the appointment of David H. Rank, Omicron '86, as a Field Director

on the Fraternity staff for 1986-87.

The fifth meeting of the 1985-86 Executive Council took place on Saturday, June 21, at the Days Inn in New York City. Included among the items in the day's agenda were:

- Approval of an eleven-month financial statement showing receipts of \$231,425.56 and expenses of \$253,178.78, for a deficit of \$21,753.22.
- Report of outstanding Chapter assessments in the amount of \$26,806.
- After lengthy discussion, decision reached to contract with Development Dynamics Group in St. Louis, Missouri to handle the Fraternity's computer needs in the areas of both file maintenance and fund raising.
- Report on plans for the 143rd Convention in Seattle, Washington on August 20-24, 1986.
- Lengthy discussion on the condition of the Rho Chapter at the University of Wisconsin, which has been on review status since October, 1985, after which

Undergraduate Advisory Board

The Undergraduate Advisory Board met for its second and final meeting for the 1985-86 year on the weekend of April 11-13, 1986. The spring meeting was held in Sparta, New Jersey, thanks to the gracious hospitality of Zbish Pietrzak, Chi Delta '86, the Board's Vice Chairman. Eight of the nine elected members were in attendance.

Among the topics discussed were methods to improve the annual Divisional Conferences, implementation of the Fraternity Education program instituted at the 142nd Convention, interpretations of "relative autonomy," and ritual. Speaking on this last point was former Field Director and Chairman of the Task Force on Ritual, Dick Dadey, Pi '80.

The major goal of the weekend, however, was to establish a declaration of principles and objectives for the UAB. After examination of the strengths and weaknesses of the current system, the Board decided to restructure its election and meeting procedures. These new measures will concentrate on utilizing to their fullest the meeting opportunities at Conventions and especially at Divisional Conferences. It is hoped that this will bring added recognition to both the UAB and the Divisional Conferences.

The work of the weekend was rewarding, and the social interaction and exchanging of ideas and information were invaluable. Special thanks must be expressed to the Lambda Chapter at Columbia University for their hospitality Saturday evening. Members of the Undergraduate Advisory Board were especially pleased to be able to participate in the Lambda's spring initiation ceremony and the festive party which followed. the Chapter was declared inactive (subject to review by the 143rd Convention), with recolonization efforts to begin as soon as possible.

• Discussion on the Psi Chapter at Hamilton College and subsequent decision to remove the Chapter from review status, contingent upon successful implementation of the Fraternity Education program.

THE CHAPTERS REPORT

We regret that the following Chapters had not filed a current report at press time: Kappa, Upsilon, Mu, Zeta Zeta, Epsilon Omega and Zeta Tau.

THETA Union College 1833

Spring term was quite eventful at the Theta Chapter. Many improvements were made in the areas of membership and campus involvement. On May 16, 1986, sixteen pledges took the vows of brotherhood. These fine young men possess many unique qualities that will greatly add to the Chapter. With this addition, the house now stands at an unprecedented 39 members.

As usual, brothers of the Theta strongly influence Union College sports. With the help of Pete Cohan '86, Dave Anderson '88, and Jim Reynolds '88, the varsity baseball team won the ECAC division III Upstate Championship. In lacrosse, Pete Agricola '87 was one of Union's top scoring threats. On the club scene, the Theta's were active in both rugby and crew. Rick Crews '88 was an integral part of the Rugby Club's "Killer B" squad until an ankle injury sidelined him for the latter part of the season. And for the crew, Dave Sveden '87 and Milford Reynard '87 helped propel the "Heavies" to victory in the President's Cup Regatta, edging out such schools as Villanova and Marist. This was the first major victory since the club's rebirth at Union three years ago by John Ciovacco '87.

In other areas of campus and community involvement, members of the Theta actively participated in writing for the campus newspaper and broadcasting for the campus radio station. Once again the Theta was well represented at the school's Annual Fund Phonathon, where brothers helped raise money for the College. In community service, Psi U's could be found volunteering at the Schenectady Boy's Club and working for the Student Escort Service.

Aside from these extracurricular activities, we have begun the long journey out of the cellar of academic standing at Union College. With a new consciousness of studies, we hope to regain our rightful position on this academic ladder. Much of our recent success can be attributed to the outstanding work of our newest brothers. In keeping with the Chapter's quest for academic diversity, Will Piersol '87 seized the opportunity to spend the spring term studying in Austria. Next term members of the Theta will be studying across the continent at Stanford and across the Atlantic in England and Italy.

Last term also found the Theta at the social vanguard of the college. Our Annual Spring Banquet was a tremendous success. For three days the undergraduates hosted several recent alumni who fondly reflected upon life in "The Old Days."

The brothers of the Theta remain enthusiastic about the upkeep of the Chapter house. There is continued interest in improving living conditions within the house. Some of the major projects recently completed include renovations in the kitchen and downstairs barroom. With the help of alumni brother Bryan Mc-Guirk '85, the kitchen received a much needed revamping. A new stove, exhause hood, and preparation table were purchased. Enhanced with a new floor and a few touches of paint, the kitchen is looking quite sharp. A new tile floor was also installed in the barroom. In conjunction with minor projects completed during frequent "Work Nights," the house remains the most comfortable on campus. Hopefully this regeneration of spirit and pride will prevail in years to come. Milford E. Reynard '87

President

DELTA

New York University 1837

This past semester we at the Delta Chapter bade a sad farewell to our beloved Poe House. Moving out more than a decade's worth of personal and Fraternity belongings proved to be a major project. Brothers Aldo Masciana '78 and Peter Paone '88 spearheaded a major effort to remove the ornamental stained glass ceiling from our Great Hall. Fortunately we were able to remove it safely and pack it for storage. Hopefully it will go up once again in our new house.

Knowing that next year will be a tough one for us, Rush Chairman Joe Barbera '88 set a spring rush record for the Delta. Our large spring pledge class has the necessary spirit and enthusiasm to see us through any difficult times.

Psi Upsilon played a dominant role in

NYU's Interfraternity Council this year. The IFC Spring Formal was held at the Poe House and was a great success. Joe Barbera managed to capture the vice presidency of the IFC, making Psi Upsilon the leading power of the judicial committee. We look forward to continued involvement in the IFC and other University affairs.

The Delta Chapter was fortunate enough to acquire a gorgeous new piano this year. The idea of getting a new piano first arose during the '85 Convention in Illinois while sitting around the Omicron's grand piano. Alumni President Eldred Halsey '58 managed to raise the necessary funds from our generous alumni and Brother Mike Lanzi '88 took care of purchasing it. The piano will make our temporary housing seem more like home.

We look forward to a strong rush next fall, based on the traditions and merits of the Psi Upsilon Fraternity rather than the best physical structure on campus. That can wait until '87.

Hope to see you all in Seattle. Edmond F. Thompson '88 President

SIGMA Brown University 1840

As the Spring semester began, all of Brown University's fraternities turned their attention toward the freshman class and the rush program. This was to be an especially important time for the Sigma, for we had to make a strong showing to remain an active member of the University's fraternity system. With a little anxiety but very high hopes, we managed to put together a very successful rush program - the final results being twelve female and nine male rushees. All Sigma's can be credited with presenting the challenge of joining a "new" fraternity in the best of all possible lights. However, special credit must go to our Rush Chairman, Michael Myers, '88 who did an outstanding job for us. The second Sigma pledge class is as equally diverse in interests and personalities as the first. They seem eager to take on the challenge that lies ahead of them on the path to becoming brothers.

Psi Upsilon continued its strong participation in community and campus events, as Sigma's participated in the Fox Point Day Care Center's raffle, the Muscular Dystrophy Association's "Love Run," the Association of Fraternity Presidents' annual casino night for charity, not to mention another string of successful social functions, including our Mardi Gras bash, which we hope will become a tradition. The A.F.P. recognized our hard work by presenting us with the Fraternity of the Year Award (this is the first time this award was ever given).

However, our most honored participation was the initiation of the Sigma Owl Club on our Spring Weekend. We waited a long time to be able to declare ourselves "brothers," and on April 19 we were so honored. The turnout on the part of the alumni and the other chapter members was overwhelming. It was a great boost to both the newly initiated brothers and the pledges to know that we belong to such a wonderful organization; it showed us the real meaning of tradition and "brotherhood." The memory of that evening will stay with all of for quite some time.

As the year drew to a close, we were forced to say goodbye to our three graduating seniors. We're assured, however, that they will be keeping close tabs on our progress. The Sigma now turns its sights to new goals: Since being granted 'full house rights" by the University, we are anxious to gain the funds necessary to renovate our house in the Psi Upsilon tradition. We also set our sights on establishing a strong relationship with the Marathon House (our last fall's community service project), and, hopefully, with our alumni as well. Finally, our biggest goal of all will be to assure that our pledges develop a real understanding of what Psi Upsilon represents. Our house of fortytwo will be a true force to be reckoned with as Psi Upsilon enters its second year at Brown University.

Michelle E. Dandridge '88 President

GAMMA

Amherst College 1841

The Gamma Chapter enjoyed a very successful year in 1985-86. We seem to have overcome the difficulties of being "dissolved" by the Amherst administration in the spring of 1984 and have adjusted well to being an unrecognized organization. The school has adopted a laissez-faire policy toward fraternities (probably in the hope that they will die out of their own accord). If freshmen interest is any indication, though, fraternities still have a good future at Amherst.

The fall was made more difficult by the

lack of a meeting place or lodge for our activities. We had to give up our apartment in town and began once again to search for a house. We held a fall semester rush, in which a number of seniors and two sophomores decided to pledge the fraternity. Fall President Jon Ralph was instrumental in encouraging the sometimes waning upperclass spirit of the fraternity, which had been weakened considerably by the number of juniors who had gone abroad.

The social highlight of the fall semester was a formal dance which all the brothers enjoyed immensely. Our springtime rush was a much greater success, as thirteen very interested freshmen joined our ranks. Their enthusiasm and dedication were heartening and provided a needed spark to our activities. President John O'Malley channeled their enthusiasm with that of the returning juniors into an excellent semester for the Gamma. With this new energy, the search for a house was picked up again, and we succeeded in locating a place about five minutes from campus. While it may not be 129 South Pleasant Street (some brothers may remember the beautiful house that we lost), it is home and we have high hopes for it. Although we purchased it too late in the school year for anyone to live in it next fall, we plan to use it for meetings and activities, including a big housewarming party Homecoming Weekend. Our alumni have been very supportive and have helped with the business end of our activities greatly.

If this year is any indication, it may turn out that the abolition of fraternities was actually a blessing in disguise. The Gamma Chapter has experienced a refreshing return to what fraternities should be. There is no longer the lure of a beautiful house or simply the best parties on campus to attract freshmen. Although we underwent a serious emaciation in membership (from about 125 in 1984 to 40 last year), the bonds which unite the fraternity have been strengthened more than proportionately. The Gamma is now a much more cohesive, tightly-knit group of people, and our future prospects seem promising.

Daniel A. Norton '87 President

P.S. On behalf of the Gamma Chapter, I'd like to extend a warm welcome to our new brothers in the Sigma and Epsilon Chapters!

ZETA Dartmouth College 1842

Chapter Strength: 91 members, 70 upperclass plus 21 pledges, 60-65 active per term, 20 members living in Chapter house per term, excellent financial resources/ reserves.

Rush/Pledges: 21 new pledges (19 in class of 1989 and 2 in class of 1988), talented, enthusiastic, diverse. Understand and appreciate rights and responsibilities of Psi Upsilon membership (via strong education program). Creation of sense of unity in the face of strongly individualistic diversity through mutual respect of each others' excellence and through many shared activities. Excellent brother/ pledge interaction.

Minimum Standards: These are the College imposed regulations set in force two years ago. Physical plant up to College standards. Continued reports to administration. Creation of Officers Manuals. Above and beyond minimum standards.

Sports: Intramural — continued excellent participation and performance, including most recently semi-final matches in lacrosse and floor hockey and College championship in inner-tube water polo. Reflection of athletic prowess of house in general.

Intercollegiate — 1985 and 1986 NCAA Skiing Champions (Tom Foote '87 and Miles de Champs '87). Prominent members or captains of rugby, lacrosse, tennis, squash, crew, baseball, volleyball, even football teams.

Community Events/Service: Barrell Jump for Diabetes and Summer Camp both very successful this year. Big Brother/Little Brother Program — continued participation by many brothers. 5K Runs for Learning to Listen, Inc. and Dick's House for Crippled Children. Blood drive participation.

Relation to Administration: Very good, stemming not from being obsequious, but from mutual respect.

GENERAL STATE OF THE ZETA CHAPTER OF PSI UPSILON AT DARTMOUTH: EXCELLENT.

Bruce B. Kelson '87 President

LAMBDA Columbia University 1842

This semester has been an interesting one at the Lambda. The ever-elusive University office of real estate has lived up to its reputation by putting off our renovations yet again. So the saga continues, and the question "What's the deal with renovations?" will still be asked with tedious frequency.

The uncertainty concerning our renovations and whether or not the house would be available for use in the upcoming academic year made rushing more challenging than usual. This semester we initiated three new brothers, bringing the total for the year up to nine. Dave Kolins '88 and Pat Dineen '88 led the pledges through a well-organized and enjoyable pre-initiation period.

Brother Brian Ring '89 contributed his goalkeeping abilities to our intramural indoor soccer team. The team defeated Fiji purple to top off a string of wins and capture the fraternity championship. Unfortunately, we were defeated in the semifinals of the open division by a team of grad students. The trophy and title of "Fraternity Champions," nonetheless, has found a deserving home at the Lambda.

The athletic field was not the only place we were successful this semester. Vice President Mike Weiner '88 led the most productive fund-raising drive in recent Lambda history. Mike arranged for the house to sponsor a film in Wollman Auditorium which brought in a nice profit. The fund-raising high point was, however, the sale of tee shirts at the Interfraternity block party, which contributed a considerable sum to the house coffers.

Treasurer David Shofi '88's efficient, careful control of the money, as well as his new, improved system of bill collecting, have helped to keep the Chapter relatively solvent.

Another of the Chapter's success stories this semester was the publishing of *The Lambda Torch*, our new alumni newsletter. A combined effort of alumni and undergraduates, it is by far the best newsletter to come from the Lambda house in a long time.

This newsletter, in my opinion, was the greatest achievement of this past semester. It will continue to be published regularly as we continue the upward swing that has recently characterized our Chapter.

> Gregory C. Giraldo '87 President

PSI Hamilton College 1843

I think all the brothers of the Psi at Hamilton College can breathe a little easier and certainly with more pride. Our probation is over, but the lesson learned remains fresh in every brother's mind. The probation was not only a punitive measure, but a helpful measure. A sense of responsibility has been instilled and seems to be getting stronger all the time.

No longer do the brothers use the excuse, "Oh, the house is too big to keep nice." With a new system of getting house jobs done (jobs to be completed by Sunday night, with the locking of the kitchen as a punishment for delinquency), the house has certainly taken a positive step. In summary, the general maintenance has come a long way.

Keeping on the subject of house upkeep, allow me to comment on the Psi's new fire equipment. Just installed is an intricate exit lighting system that is quite nice. On top of that, we have new fire alarm facilities, with new fire doors on the way. While on the subject of expensive maintenance, I will mention our Renaissance Campaign, which has been spearheaded by our incredibly capable and loyal trustees.

Beautiful leaflets were sent to roughly 800 of our alumni in hopes of raising money for more safety measures, along with new lighting, renovated bathrooms on the third floor, and a host of other things. We trustees deserve much credit for this successful venture. The forthcoming Alumni Work Weekend will serve two purposes. It will bring back interested alumni to the house. Hopefully, by doing so, some fond memories shall be stirred and a few laughs had. And, secondly, some work around the house will be accomplished. I feel this is a great thing on the alumni's part and I hope for a fun and successful weekend.

The Psi is looking forward to living with a new class of brothers. In all, there are twenty-one new brothers in the delegation, and they are all "psyched." The values of Psi Upsilon have been unveiled to them, and they are all ready to hold their heads high, knowing they are a Psi. The impact of the new brothers has been felt, and I feel they can only make the "Bold" house even stronger.

What makes the Psi so strong now, I feel, is our (was our) adherence to the probation measures as mandated by the Dean. The five-party limit was a blessing in disguise. The parties went extremely well (to which the whole campus can attest!) and taught the brothers the beauty of organizing and throwing a "real" party. Although the five-party limit was a probationary measure, the brothers feel it would be smart to limit the amount of parties we will throw this coming year. But most importantly, our adherence to both the Psi U alcohol policy and the school's policy are true indication of a renewed sense of responsibility.

As far as financial matters go, the Psi is in good shape. New policies have been instituted to discourage delinquent dues payers. Both our new and old treasurers (including our Steward Accountant) have done a stellar job in maintaining a tight budget.

I am looking forward to seeing everyone at the Convention.

> Stephen C . Conley '87 President

XI Wesleyan University 1843

With the end of the semester, the Xi wraps up another year of being a strong force on the Wesleyan campus. Fraternities at Wesleyan are being questioned, and the Xi has thus far completely defended its right to exist. The debate for coeducation of fraternities at Wesleyan has begun, but the Xi undergraduates and alumni are confident that this debate will end in the continuation of Psi Upsilon as an independent, free-thinking institution.

Internally the Xi has had a good year. The addition of many devoted new brothers has seen many house improvements. The loss of the graduating seniors will more than amply be made up by these new members. Although the Xi financial position has seen better days, it looks like we will make it through the summer. Higher insurance premiums, grafitti removal, and poor social budget management have all contributed to the lack of funds.

Some notable Xi men this semester were Mike Bay '86, who won a most impressive award as well as receiving high honors for his thesis film, "My Brother Benjamin." Brothers Canti, Deyo, and Pruzan were all major contributers to the rugby team's 8-0 Little Three Championship team. Many Xi alumni celebrated class reunions on the June 6 weekend, and a big banquet was held. A good time was had by all in attendance.

> Michael A. Pruzan '87 President

IOTA

Kenyon College 1860

The Iota Chapter of Psi Upsilon at Kenyon College represents individuality within the fraternal structure. That is not to say we are disunified, for this would be inaccurate. The Iota prides itself on selecting people, not images, as its new brothers. This diversity is indicative of the experience one would ideally encounter at a small liberal arts college — a vast body of fresh ideas contributing to a balanced and enriched environment.

Each member of the Iota's 1986 enrollment typifies this Chapter value. New brothers such as Sandy Spadavechia (representative to freshman council), Stuart Helfenstein (Corresponding Secretary for the Iota), and Scott Collins (New Hope school volunteer), give credence to our quality of human balance and high standards. This 1986 class is represented on the tennis, baseball, lacrosse and rugby spring teams, further demonstrating their healthy nature. Be he athlete, academician, or socialite, these men have seen beneath generic titles, finding the bonds of brotherhood. This group of twenty has quickly accepted the obligations of Psi Upsilon. A solid and unified foundation has been established within the walls of the Iota.

This Chapter's striving for complete participation is expressed in community events as well. Intramural sports competition is accompanied by volunteer work in the New Hope School for Retarded Children and Battered Women's Shelter, along with periodic visits to elderly neighbors in our community. Experiencing and relating to others — that's what it's all about!

I am very pleased with the Iota's progress this quarter. We are a Chapter of sixty members, yet our diverse membership allows for tremendous human growth.

> A. Read Ziegler, Jr. '87 President

PHI University of Michigan 1865

The 1985-86 year ended successfully as usual for the Phi, socially, academically, and athletically the brothers continue to excel. Two rushes brought a total of twenty new members, which puts our active total at 51 after graduation.

This past year marked the third consecutive year that the Phi has captured the intra-mural hockey championship. Also, our softball and football teams both landed in the semi-finals of playoff action. As for varsity athletes, Keith Cowan '86 finished off his final year on the gridiron, Todd Johnson '87 will continue throwing the shot for the track team, while John Solik '88, Jed Hakken '87, and Ed Filer '87 continue to work hard for the nationally renowned Michigan tennis team.

This fall the Phi is hosting its second annual Volleyball Tournament for charity. This should be a great success as Michigan's fraternities battle it out on the court in our backyard, with proceeds going to charity.

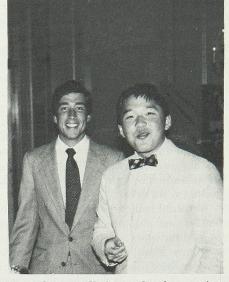

Everything is going well in Ann Arbor. The 1986-87 year will again be successful as continued dedication and enthusiasm surround the Phi.

> John W. Wing '87 President

OMEGA

University of Chicago 1869

The Omega has been working hard to improve its community service and

Frank Connolly '86 and Bob Kang '86, the Omega's two presidents for 1985-86.

awareness programs. Recently we held the First Annual LOST WEEKEND, a two-day festival organized by brothers Bill Gantz '87, and Mike Kelly '88, with the assistance of the two new sororities on campus, Alpha Omicron Pi and Kappa Alpha Theta. This event benefitted the Chicago Boys Club. Andrew Brownfield '88, after his return from the regional conference, held a seminar on dealing with problems relating to the University community. Brothers Ed Ruder '88, Duane Nelson '88, and Frank Connolly '86, have been working diligently to strengthen the lines of communication between Psi U and the community, especially with our neighbors and the local youth population. There has also been a concerted effort by the brothers to clean up the back lot in order to expand and beautify our back yard. Brother Roger Hunt '87, deserves special thanks in this endeavor.

In terms of the social life in Hyde Park, the Omega still leads the way at the University of Chicago. Our study breaks dominate Tuesday nights on campus. Frank Connolly '86, and Jon King '86, and Jim Johnston '86, deserve crowning praise for their labors in maintaining Psi Upsilon's presence at social and extracurricular events on campus. Brother Connolly was recently awarded the Howell-Murray Award for Exceptional Contribution to Extracurricular Life.

Omega alumnus Frank Caesar '85, now in Chicago's law school, was appointed Student Ombudsman at the University for the 1986-87 school year. Caesar was chosen for this by the President of the University.

On the athletic front, Psi U stands in the fore. At the varsity level, Brothers Gene Shin '86 and Landall Courmierc '88 went to the National Finals in wrestling. Shin went on to place second and is an All-American for the second time in his career. Ed Ruder was the leading pitcher for the Chicago Maroons baseball team and is a shoo-in for All-Conference honors.

The Omega recently competed in another sort of contest which brought the brothers together in a feat of great ingenuity. In an attempt to win a free Florida vacation for 28 people, we entered a contest to try and build the most creative architectural structure out of Nestle's Quik boxes. Dave River ;85, Tony Kuznik '87, and Dan Fried '87 were instrumental in our construction of a scale model of the Sears Tower. We fell short of the vacation prize, however, placing approximately seventh.

The Omega lost some major contributors to graduation. We wish to congratulate brothers Tuow Ting, Chris Panczer, Jim Johnston, Jon King, Bob Kang, Paul Gibbons, and Frank Connolly. Congratulations are also in order for Harold Tsai '87 and Richard Davis '88, winners of Psi Upsilon scholarships for the 1986-87 school year.

> Francis W. Connolly '86 Past President

PI

Syracuse University 1875

As the 1985-86 academic year has drawn to a close, the Pi Chapter proudly reports that the spirit of Psi Upsilon is alive and well. This hardy feeling was best reflected both academically and socially throughout the fall and spring semesters. With the always present emphasis on academic pursuit, the house G.P.A. continues to increase, with many more brothers achieving Dean's List status than in recent years.

The social calendar proved to be a tremendous success, highlighted by such events as the annual three-day "Snowball" winter formal, where a strong contingent of alumni as well as all the actives participated. The Halloween Party, Phantom Formal, and Toga Party also proved to be a repeated success.

The transition to a dry rush program last fall was a smooth one. This became evident as ten new men joined the ranks of our brotherhood. An equally successful spring rush enabled us to initiate an additional eight men, thus keeping our numbers as strong as ever.

The Pi increased their participation in campus activities throughout the past year. Although the Pi lacked huge numbers in comparison to the larger houses, we more than compensated with dedication and team spirit, qualifying for the final elimination rounds in football, softball, and track and field.

With the wholehearted commitment of the brotherhood, the Pi became avidly involved in the University's 1986 Muscular Dystrophy Dance Marathon. While raising over \$1,300, many brothers assumed active roles in the running of the two-day event, including the position of Master of Ceremonies for the second consecutive year.

The Pi's strong sense of enthusiasm and unity can best be displayed in the ongoing effort to restore our Chapter house. In June of 1985, the Chapter house was finally included on the National Register of Historic Places. We have decided to continue the restoration process at a more vigorous pace. Although inadequate funds hinder our progress, the commitment on the part of the brotherhood keeps the effort alive.

I would like to thank the active members, especially the 18 graduating seniors, for their undying dedication to the Pi. I also would like to express appreciation for the support of our alumni body. The brothers of the Pi thank all of the delegates who attended the Divisional Conference at the Pi in February, and extend warm congratulations to the Theta Theta Chapter on their seventieth anniversary. Continued success to all other fellow chapters!

> Christopher E. Baylow '87 President

CHI

Cornell University 1876

Membership/Rush: Strength, diversity, quality. 23 Brothers plus 13 Pledges minus 2 graduates.

123 Dryden Road — temporary off campus address. Handicap? No, better rush than most of the 54 Cornell fraternities.

Pledging: Ten weeks — learning, sharing, initiation . . . amazing.

Community Service: "Fine young men." Neighborhood Council Committee-Collegetown Clean-up, host for meetings, two Awards of Distinction. Greater Ithaca Activities Center — fun with kids and the elderly. Cornell Phonea-Thon-raising money.

University Involvement: Serious. Hockey Team, Polo Team, Rowing Team, Ski Team-captain, Water Polo Team, Campus Crusade for Christ, Student Finance Committee, Hotel Ezra Cornell, Inter Fraternity Council, Cornell Korean Students, Cornell Association of Student Architects, Phi Kappa Phi, Academic All-American, Dean's List, Architectural Distinction.

Members of the Chi Chapter at Cornell University pose on the steps of their temporary home at 123 Dryden Road in Ithaca. This year the Chapter will re-occupy its historic home at Two Forest Park Lane.

International: No explanation needed. Matthew Clary, Theta Theta '85 — two visits. Henry B. Poor, Gamma '39 — a true inspiration.

Social: Excellence. Christmas Formal, Sororities, Second Invitational Boxer Short Party, Oktoberfest — the best of the fests, Sororities, New Brother Formal, Roadtrips/Visits — the Pi, Theta, Zeta Tau, Delta.

Alumni: Thank you. Alva Tompkins '24, Robert Bliss '30, Robert Purcell '32, Jansen Noyes Jr. '39, Robert Engel '53, Jack Vail '54, Stanton Weissenborn '49, Charles Streeter '61, Richard Schultz '75, and Christopher W. Hart '72 (our fearless leader). Thank you.

Little Chi Dinner - New York City.

Little Chi Luncheon — Chicago.

Two Forest Park Lane: Our home. Noyes and Purcell — fund raising campaign, wow. Streeter — contractor for renovation, this summer. Occupation: Fall 1986.

Next Year: One-hundred-ten percent. As when we started out three years ago, our goals and ideals have not changed. We are determined to be the best individuals we can, and by combining our traits and talents we will and are creating the strongest brotherhood on the "Hill."

Homecoming Weekend-November 8, black tie, see you there. . . .

Todd M. Fulshaw '88 President

BETA BETA Trinity College 1880

As the 1985-86 academic year came to

a close, the Beta Beta continued to maintain itself as a strong and active Chapter. Our ranks have been strengthened by the addition of fourteen new brothers, resulting in a well-rounded brotherhood. A rush barbeque, organized by Rush Chairman Ethan Brown '88, indicated that a large number of freshmen are interested in the Beta Beta, and we anticipate a fine turnout of rushees in the fall.

Members of the Beta Beta remained active over the year, with brothers participating in varsity football, soccer, hockey, basketball, wrestling, skiing, squash, lacrosse and track. The basketball and hockey teams, led by point guard Mike Donovan '87 and center ice man Frank Newark '87, each won the ECAC championship in their division. The Beta Beta is also involved in the entire fraternity system here at Trinity, as Rick McCaulley '87 and Kurt Stout '87 hold positions on the Inter-Fraternity Council as President and Treasurer, respectively.

The social highlights of the year for the Beta Beta's were undoubtedly the Fall Ball and the Spring Weekend Formal. Both occasions were marked by the music of the Riverside Drivers and by good times for all who attended. The Fall Tropical Party was also a success, as were the traditional Thursday night parties.

Thanks to the fine efforts of Andy Filler '87 and Rick McCaulley '87, the American Red Cross Blood drives, which the Beta Beta sponsors each semester, were once again very successful. The Chapter also hosted films and lectures on subjects such as "Date-rape" to help make the community more aware of potential social problems.

The house itself is in need of certain repairs, and a special office has been created to help make these repairs possible. This office will deal with contributions from alumni which will be used specifically for the house itself. Tom Fitzgerald '88 and Ross Burdick '88 are co-chairmen of this new project and will confer with House Manager Tim Hall '87 on the reparations. The year was not without improvements to the house, however, as a new refrigerator was installed in the kitchen. A pool table was also added to the house, upgrading its social aspect. The purchase of the pool table was possible largely through Mike Doyle '87 and his connections in the world of leisure.

The upcoming academic year promises to be just as exciting and pleasurable as the one that has passed. The Beta Beta wishes good luck to all Chapters in the year ahead.

> Peter M. Worthing '87 President

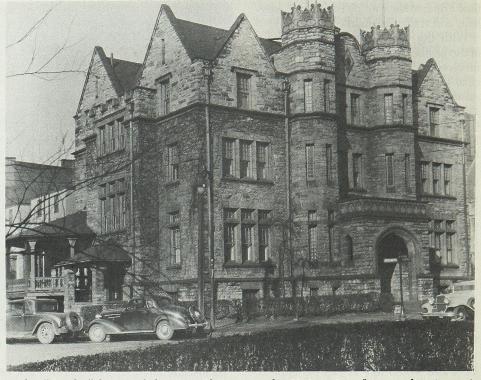

ETA Lehigh University 1884

Greetings from the Eta! The fall '86 semester looks to be a very promising one. Our recent election brought in a new group of very capable officers who are prominent leaders in both the house and on campus. Our great interaction with the alumni has the brothers looking forward to Lehigh-Lafayette weekend, always a good time. With our fourteen quality new pledges, our membership is soon to become 41 strong, with the sense of brotherhood being better than ever.

This past semester proved to be very successful for the Eta. Thanks to the hard work of the brotherhood, our academics took an upward turn. A good number of brothers achieved the Dean's List with grades of 3.5 or above. Along with academics, the brothers continued to be leaders throughout the campus. Our involvement in the Interfraternity Council was strengthened when Bob Kanuga '88 was elected chairman of the Academic Committee, and numerous other brothers joined the Social Committee and Fact-Finding Committee. Other organizations in which Eta's are represented include the Forum, varsity tennis, the school newspaper and radio, and the International Club.

Congratulations go out to Gary Pan '86 and Brent Formigli '86 for being winners of the Student Life Award. Gary, Chairman of Psi U's Undergraduate Advisory Board, was also the proud recipient of the Interfraternal Award.

As for the social scene, our video Dance

The "Castle," home of the Tau Chapter at the University of Pennsylvania, as it appeared in a 1941 photo.

Party was once again a big success, as it continues to be the only one of its kind on campus. Our Band and Hawaiian Parties followed close behind, as everyone had a great time. As always, we are continuing to be a prominent factor on the Lehigh campus.

Participation proved to be our key to success in intramural sports with an overall finish in the top ten. Wrestling turned out to be our greatest achievement, with a second place finish (John Treichler '86 was champion of his weight class), following Alpha Chi Rho by a mere two points. Our volleyball and track teams gave strong performances, with volleyball losing in the quarter-finals to the eventual champs.

We continued to get involved in our community this past semester. We did our part in the "Clean Up Bethlehem" program by cleaning some vacant lots and planting flowers. Also we entered a team in a campus-wide charity volleyball tournament. The brothers are looking forward to being an integral part of a charity carnival planned for the fall '86, and we are planning many community projects with the help of our new faculty advisor, Brother Jim Harper, Epsilon Omega '54, who is involved with community relations at Lehigh.

Finally, we cordially extend an open invitation to all brothers and alumni to stop by and visit anytime, as you are always welcome at the Eta.

> Stephen A. Topper '88 President

TAU University of Pennsylvania 1891

The Tau continues on its path of strength as we move from spring to summer. Two big annual events were enormously successful for the Tau this spring: initiation and graduation. April 5 saw the initiation of a fine group of fifteen men, all of whom already have made significant contributions to the strength and excellence of the house and to the University as a whole. Initiation honors are due David Schrohe '89, worthy recipient of the David P. Narcross Bowl, awarded to the most outstanding pledge. Commencement exercises on May 21 marked the end of an era for fifteen Tau graduates, whose collective contributions to the house will be enjoyed for many years to come. An exceptional four Tau's were honored at Commencement, graduating cum laude or better (Timothy Davis, Kosmas Kallierekos, Frank Pottow, and Bill Safran).

In the University community, Charles Crockett '87 was invited to the coveted position of trustee liaison; Brother Crockett was also this year's recipient of the Castle's Junior Key Award for outstanding contribution to the house. Tau's also received recognition and honor in many other fields of endeavor at the University: three were presidents of undergraduate clubs and societies, four brothers served as representatives to the Student Activities Committee, and two were members of the Dean's and Wharton Advisory Boards. Furthermore, the Castle's interaction with the Pennsylvania faculty and community increased with enhanced programs of guest speakers and faculty cocktail parties.

Psi Upsilon also enjoyed unprecedented success in sports this spring. Crew team members Gordon Stone '88, Duncan Bain '89, and Chris Jones '89 lent their skills to the lightweight and freshmen boats. In addition, Chip Baguio '86 and Anthony Narbutt '89 were successful members of the squash team. Skiers Kai Rasmussen '86 and James Carter '87 represented Penn on the slopes. Brother Carter is currently involved in tryouts for the United States Olympic field hockey team. Tau talent was also seen in the intramural arena, where the squash team rallied to a first place victory, and the swim team came a close second in fraternity competition.

The spring term saw several crucial renovations to the Castle, thanks to the 1985-86 Annual Giving Fund, which brought in close to \$30,000, most of which went toward much needed house improvements to the kitchen and dining facilities and to the basement, second, and third floor ceilings. We thank all contributors to this year's campaign; their generosity has afforded us several projects aimed at cosmetic and structural improvements to the house. Several new house projects are underway, pending funding, including a complete refurbishing of the weathered Castle roof and rebuilding the stage and floor of the Great Hall. The 1986-87 Annual Giving campaign is already off to an encouraging start with the generous pledge of a matching donation of up to \$50,000. The fall promises to be an important time for the Tau, with the upcoming rush process, an integrated program of renovations to the house, and further involvement with Psi Upsilon and with the University. We look forward to a semester and a year of continued excellence.

> Anthony W. Schneider '87 President

EPSILON

University of California-Berkeley 1902

The 1985-86 academic year was a tremendous learning experience for everyone involved with Epsilon Chapter activities. We began this year as an Owl Club, eleven men meeting in an apartment, and ended it twenty-three strong, with seventeen actives and six pledges. To get from eleven to twenty-three was part ad campaign, part magic trick, with forty-one fraternities competing for a couple of hundred interested undergraduates at a school of 30,000. To spread the word that the Epsilon Chapter of Psi U was back on campus took the ad campaign; the magic came into play when thirty plus interested men attended our introductory meeting. From them we bid eleven, eight of whom accepted.

Later in the spring we mounted a similar but smaller campaign and got similar but smaller results. Each time Matt Clary, our beloved friend and Field Director, was in attendance to help out and lend some credibililty, a coat-of-arms, and a slide show to our cause. Aside from rush events we developed a working relationship with the LeConte School in Berkeley, who were surprised to find a group of twenty "frat boys" willing to give up an entire Sunday to do back breaking yard work to help local school kids. Other events included a trip to a San Francisco museum, our first exchange, and a very successful end of the year retreat.

Most importantly we were initiated at a very nice, simple, elegant ceremony in San Francisco's Bohemian Club. We were joined by two Theta Theta's and four Eta's who were our welcome guests. We thank them, Henry Poor, Matt Clary, and our alumni for making initiation very special. We also held our first unaided pledging ceremony. It too was simple but hopefully meaningful for our pledges.

Academically our standing is surprisingly good. Our GPA continues to improve; it is now among the best in the Greek system and it is even higher than the all student-body average.

Finally, some of our membership moved from pledge to alumnus in a matter of two weeks. To them we say good luck, sorry you could not have been active for longer. But it is nice to have a few alumni that have graduated within the last twelve years.

Thanks once again to our alumni and everyone who has helped us along. We appreciate it and we are glad to have been part of reviving a worthy Chapter of a proud Fraternilty.

> Edward S. Zusman '87 President

OMICRON University of Illinois 1910

As the summer progresses, it is again time to step back and review the past semester. The theme — busy, busy, busy. We stepped right into the action with nightly practices for Atius-Sachem, our Mom's Day talent show. These rigorous sessions continued through mid-April, as we qualified for the finals once again. Despite our dedication to Atius, we man-

Members of the Omicron Chapter at the University of Illinois celebrate at spring initiation.

aged to work in a full schedule of social events. Among the activities were three exchanges, a wild pledge Dance, a dance filled Set-Up Dance, and a "Springtime in the Woods" Spring Formal Dance. Our visitors included the women of Phi Sigma Sigma, Sigma Kappa, and Alpha Omicron Pi.

We also enjoyed continued success in athletics, capturing the 12" softball championship, as well as losing a close semifinal game in broomball and floor hockey.

Academically we've been on the move, improving each of the past three semesters. Work is underway on a major revamping of our file system by our current scholarship chairman, Tony Kremer '87. It is our hope that with the completion of this project our current momentum will only pick up.

With the addition of 17 members and 6 pledges this semester and the acquisition of 12 pledges for next semester, membership has continued to rise. Currently we are looking at 47 members inhouse and 62 on campus before fall rush.

The upcoming fall semester should also bring some exciting events, including the Statue of Liberty Triathlon, a giant football block with the ladies of Phi Sigma Sigma, bidnight with Alpha Xi Delta, Atius-Sachem with the ladies of Alpha Phi, and numerous exchanges.

With the support of our alumni, we are hoping to rewire our electrical system and acquire some new furniture. Special thanks to Mark Rewerts '83 who has put in quite a lot of time to get this project off the ground. And though it hasn't been approved yet, we are also looking at installing a phone system this summer.

In closing, we would like to thank our outgoing executive officers: Mark Bittner '86 (president), Thomas Anichini '87 and Tim Knauf '88 (vice presidents), Mark Johnston '87 (secretary), and Joseph Hudson '86 (treasurer). Meanwhile, we would like to congratulate the incoming executive board, Shigeki Makino '87 (president), Stanley Parker '87 and Robert Lies '88 (vice presidents), Ross Crotinger '87 (secretary), and Brent Langman '87 (treasurer). We wish them the best of luck in the upcoming semester.

Congratulations are also in order for Psi U of the Year and Psi Upsilon's new Field Director, David Rank, who will join Tom Phillips '85 in his second year as a Psi U Field Director. Finally, we would like to congratulate Brother Guy Fraker on his nomination as Alumnus of the Year.

From the brothers of the Omicron, best wishes to all! Our doors are always open to those who wish to enter.

> Shigeki Makino '87 President

THETA THETA University of Washington 1916

Another academic year has passed here at the University of Washington, and the brothers of the Theta Theta made sure it was an eventful one. Spring quarter especially provided a myriad of activities, both social and fraternal.

Undoubtedly the highlight of the quarter was Psi U's victory in the 1986 Songfest competition. The annual event, held during the University of Washington's Greek Week, is the year's most prestigious, with 30 fraternities and 20 sororities involved. The competition took place in Meany Hall in front of TV cameras and an audience of 3,000 people. An incredible effort was put forth by Songleader Steve Oeck '87 to organize and lead practices all through winter and spring quarters, and a large part of the victory must be attributed to his hard work. Overall, Psi U made a strong showing in Greek Week, finishing third.

Another high point of the quarter was the reactivation of the Theta Theta-to-Zeta Zeta philanthropy bike ride. With the help of Chi Omega sorority, a tandem bicycle was ridden from Seattle to Vancouver to the Zeta Zeta Chapter at the University of British Columbia. The event raised over \$2,000 for the American Cancer Society.

May saw the reactivation of the Epsilon Chapter at the University of California at Berkeley and the initiation of its first pledge class. The ceremony took place at the Bohemian Club in San Francisco and was conducted by Henry B. Poor, Gamma '39. In attendance from the Theta Theta were Rich Cuff, President, and Ken Magos, who had helped pledge many of the Epsilon's.

Along with outside activities and competitions, many notable events of the brotherhood took place inside the Theta Theta. In May the First Annual Senior Dinner was held. A few brothers prepared a fine meal as the graduating seniors were honored and roasted by their fellow brothers, as well as being presented with engraved name plates. It was a very enjoyable evening as anecdotes and reminiscences abounded.

Also in spring the yearly Chapter awards were given. Outstanding Pledge for 1985-86 was Drew Nielsen, and Outstanding Brother was Ken Magos. Congratulations to both on well-deserved honors.

Socially spring was full of a variety of activities, including barbeques, TGIF's, and exchanges. Of course the highlight of the season was the Fourth Annual Love Barge cruise on Puget Sound, with dancing and merriment lasting until the late hours.

And, of course, much of the quarter was taken up with preparations for the upcoming 143rd Convention of Psi Upsilon to be held at the Theta Theta in Seattle this summer. The Convention also coincides with the 70th anniversary of the founding of the Theta Theta Chapter at the University of Washington. Convention Chairman Bill Borkowski '88 has been working with many brothers to organize and prepare for the many activities to

The Theta Theta Chapter wins first place out of thirty fraternities in the University of Washington's Songfest.

take place during the Convention, which lasts from August 20 through 24. We would like to invite all who are able to come to the beautiful Pacific Northwest this summer and enjoy what should prove to be a truly memorable event.

> Christopher J. Walz '88 Corresponding Secretary

NU

University of Toronto 1920

After losing six members to the 1985 graduating class and two more to another University, the Nu started the 1985-86 year with only six brothers. Through fine leadership and great effort, we enjoyed a tremendous year. The Nu will be starting the 1985-87 year with a clean balance sheet, a much improved Chapter house, a membership of fourteen brothers and pledges, and, most importantly, a very enthusiastic brotherhood.

In spite of our low numbers, Psi Upsilon's presence on campus was as strong as ever. Six parties filled the house to capacity, as did a number of exchanges with the ever friendly U of T women's fraternities. In addition to heavy Chapter responsibilities, many brothers continued their active participation in campus affairs. Several ran successful campaigns and were elected to executive positions on bodies such as the college and course student unions, the campus newspaper, and the Young Liberals party.

The Nu Chapter continues to enjoy a brotherhood drawn from a wide variety of disciplines. Fields of study range from Anthropology to Engineering. Commerce to Psychology. This diversity brings us numerous skills and a wide range of views and makes for very lively meetings. We are proud to acknowledge the recognition given to Brother Lawlor '87 by the Psi Upsilon Foundation through its scholarship grants program.

The Nu was well represented on the International scene. Three brothers teamed up with Brother S. V. Davies '83H for what was to be a very educational and exciting 142nd Convention. Many thanks to the Omicron Chapter for the great organization and good times. In February, six brothers and one pledge made their way down to Syracuse for a stimulating Regional Conference. Our thanks to the brothers of the Pi, who were great hosts and made us feel welcomed and at ease. Congratulations go to Field Director Matt Clary for his preparation of what proved to be a very constructive weekend. In addition to our travels, we were pleasantly surprised by visitors from the Chi Delta, Epsilon Iota, and Eta Chapters. A good time was had by all,

and we take the opportunity to extend an invitation to all our brethren. Toronto is an exciting city!

We are presently organizing house renovations and planning for the upcoming year. An August retreat will consolidate our successes and kick off another year of expansion. On an ending note, we wish all Chapters the best of luck for the forthcoming year.

Charles S. Brochu '87 President

EPSILON PHI McGill University 1928

After a year of rebuilding, the E Phi Chapter has emerged as one of the strongest bodies since reactivation. With the addition of eight new brothers and six pledges, our numbers have risen to the point of respectability. For this we owe thanks to our alumni for their invaluable advice and support, and we are hoping to see the trend of further alumni participation grow at the rate it has in the past year.

Our campus presence has been strongly felt this year, as it has in the past. In sports, E Phi placed brothers on the football, skiing, and rugby teams, not to mention an abundance of intramural teams. We also have had in our midst a school newspaper editor and the vice president of the McGill students society.

Elsewhere, Psi U pub nights again have become a campus institution, and the "Not so Formal Formal" was difficult to rival. Springtime was marked by the inevitable road trip, during which fifteen E Phi brothers assaulted four states armed only with a thirst for adventure and our good charm. We thank the brothers at Trinity College and especially those at Union College for their overwhelming hospitality. We, of course, at E Phi extend an invitation to all Chapters to take advantage of our somewhat dilapidated house in the heart of downtown Montreal.

And, finally, while on the subject of our crumbling mansion, plans have been made and authorized to do a full renovation on the house, and we are hoping to see this goal achieved by next summer as fund raising will move into full swing in the fall.

> A. Neil Craik '87 President

EPSILON NU

Michigan State University 1943

Greetings to all from the Epsilon Nu! Spring term 1986 was both rewarding and memorable for the Chapter as a whole. Our academic progress continued as we improved our overall grade point average. We also have improved our overall numbers to a healthy 70 brothers, as we recently initiated six new members into the halls of Psi Upsilon. Many thanks to all who helped with a successful rush, especially the fine jobs done by Brothers Pat Delanty '86, Scott Hoyt '89, Scott Taradash '87, and Brian Nienhaus '86.

Greek Week '86, held during the week of May 5-9, was a relative success for the Epsilon Nu. First came a victory over Sigma Chi in the tug-of-war, the second time in three years Psi U has taken first place. Second came a strong showing in Greek Games as several brothers came home with firsts and seconds; it was a fun time for all Greeks! Finally, with the cooperation and partnership of the ladies of Kappa Kappa Gamma, we were fortunate enough to capture second place in Greek Songfest, our best showing in years! This included first place for "Best Theme Interpretation," as well. Many thanks to all who participated, specifically to Brothers Kenan Bakirci '87, Gregg Calvird '88, Paul Schreck '86, and Chris Keller '87 for their hard work and skill in making Greek Week a successful one. We also hosted our annual "Car Stuff" event for Greek Week. Although no "World" records were set this year, it was still tremendous fun for all who attended.

In other events, an Easter Egg hunt was put on for the Beekman Children's Home for the mentally retarded. An annual event as well as one of our community service projects, a great time was had by all who participated. Programs put on by the house for the Beekman Center have always been a labor of love. We look forward to hosting them again soon.

The house put on its annual Mother's Day for parents and especially for some of our most ardent supporters: our Mother's Club. They have supported us throughout the year, and at this time the house would like to thank the Mothers Club for their generous donations and effort.

Athletics have always been an important part of house activities; this term was no exception. Although our golf team failed in its quest to defend its IM tournament title, it did achieve top honors in the Kappa Delta Gold Classic. Hats off to Brothers Jim Bearden '87, Jim Kalajian '88, Rob Jones '89, and Mark Zelinski '88 for a job well done! Our softball team improved as well, even though it failed to make the play-offs. An important and positive aspect of the team was its positive attitude, which was pervasive in many of the house activities this term.

Members of the Epsilon Omega Chapter enjoy the Chicago Founder's Day dinner held at the Racquet Club on April 9.

Watch out for Eppy Nu next fall!

Other notable happenings this term were: structural improvements on the house, a special dinner speaker in the person of MSU President Dr. John Di Biaggio, an honorary dinner for longtime friend and confidante Brother Dave Brogan, and the addition of a springer spaniel to the house as mascot. As we celebrate our 100th anniversary as a literary society at MSU, we can only hope we have laid the foundation for an even better second hundred years!

Congratulations to our nine graduating seniors, especially Brother Paul Schreck '86 who was named one of the 22 outstanding seniors of 1986 based on academic achievement and leadership skills. Good luck at the University of Michigan medical school, Paul! A final word of thanks to G. William Moody '52 and the rest of our alumni board for their words of encouragement and their solid backing of us throughout the year — your help was much appreciated. See you in Seattle this summer!

> Thomas B. Smith '87 President

GAMMA TAU

Georgia Institute of Technology 1970

The past year has proven to be both busy and productive for the brothers of the Gamma Tau. The year began with the brothers preparing for rush. After hours of hard work, we were rewarded by the fact that our membership was increased by one third.

Also in the fall the Gamma Tau made great strides in restoring the house. We landscaped both the front and back yards, improved the front porch, and put in new floors throughout the house.

This past year was also the Gamma Tau's fifteenth birthday, which happened to coincide with Georgia Tech's one hundredth birthday celebration. The Gamma Tau celebrated with a dinner and dance, . . . many out-of-town alumni showed up for the celebration.

The Gamma Tau was pleased to host the Executive Council for their February meeting. This meeting helped propel the Gamma Tau into finishing the year with a flurry.

The Gamma Tau again dominated the intramural volleyball scene. Our men's team won the fraternity championship and our co-rec team made it to the semi-finals. Our basketball team, though inexperienced, showed many signs of improvement and look to be a force in the future.

Spring quarter brought the Gamma Tau one of its finest quarters in years. We had our first formal spring rush in years and succeeded in initiating three of the pledges late in the quarter. The Gamma Tau finished fourth in Greek Week, with all brothers participating in events. Spring intramurals were also a success. The Gamma Tau, known for its volleyball prowess, showed that it is on the verge of leading the campus in softball and golf. The softball team won our division but lost in the quarter-finals. Our golf team finished third in overall competition. The Gamma Tau has had a successful year and is looking forward to next year and fall quarter.

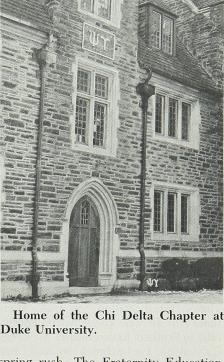

Finally, the brothers of the Gamma Tau extend an invitation to all visiting brothers and alumni to stop by and see us.

Paul B. Littmann '86 Secretary

CHI DELTA Duke University 1973

Greetings from the Chi Delta! Our year can best be summarized with the phrase "Do more with less." Despite beginning the year with severe financial constraints (the Chapter effectively had a debt of \$2,000), the brotherhood not only met the challenges set by last year's rigorous programming schedule, but actually expanded on it. We kicked off the year with our annual retreat to set goals for the coming year, discuss such topics as the Fraternity Education Program, and just have a good time. It turned out to be quite successful despite arctic temperatures (yes, it does get cold in North Carolina).

With the retreat under our belts, we headed into rush, led by Rush Chairman Michael Kaplan '88. Our hard work paid off when we extended bids to ten men in January and two more during our April

spring rush. The Fraternity Education Pogram was implemented by Zbigniew Pietrzak '86; we found it to have its ups and downs, as with anything new, but also a large potential to improve current pledge programs.

Along with our attempts to improve the pledge program, we held several closed forums to improve our abilities to deal with each other and problems we might experience on campus. Rob Gringle spoke to the brothers and little sisters about substance abuse and responsible drinking, and Dr. John Barrow held a discussion focusing on dealing with interpersonal problems in the fraternity, to name just a few.

On the campus scene, the Chi Delta sponsored many open Psi U Forums, including a discussion by Dr. Louis Dupree on his experiences with the Afghanistan freedom fighters. Dr. David Caploe kicked off a three-part series on the conflict in the Middle East in the Psi U commons room, sponsored with the two other fraternities in our quad. The Chi Delta also sponsored "The American Response to Terrorism," which featured Colonel Rod Paschall, former commander of Delta Force, and Dr. Stephen Benko of the State Department. It was a huge success. Coach K (Mike Krzyzewski to all non-basketball fanatics) also was in our commons room to preview our record-breaking basketball season.

The 1985-86 academic year was the Chapter's first with a Service Project Coordinator, as we sought to give back some of what Durham has given to us. Beginning in October, we began to make weekly visits to Lenox-Baker Children's Hospital; it has been a mutually beneficial experience, and we have been cited by the North Carolina Department of Human Resources. We have participated in the ASDU/IFC Safe Rides program, worked at the local YWCA, and helped raise money for the university through the Dialing for Duke program.

This year featured the appointment of the Chapter's first Historian, who is well on his way toward putting together a comprehensive Chapter history and scrapbook. A complete lineage dating back to our days as Chi Delta Phi is also nearly finalized. We continue to promote strong ties with the International office as well as the undergraduate Chapters; our brothers visited the Eta, Delta, Lambda, Chi, Phi Beta, Xi, Pi, and Tau Chapters this year, and we hope to continue this trend. We cordially invite anyone to visit the Chi Delta at any time.

Our gaze has already begun to shift to next year, and plans are in the formative stages for many activities, including a week-long symposium with David Westol, who spoke at the 142nd Convention, on eliminating hazing in the pledge program. Once again, we at the Chi Delta would like to wish everyone continued success and extend an invitation to visit us and sample our hospitality.

> Michael J. Horowitz '88 President

EPSILON IOTA

Rensselaer Polytechnic Institute 1982

This spring at the Epsilon Iota our annual election of house officers was held, giving us yet another fine executive council. This year's officers are Reuben Hull '87, whom some may remember from the Northern Divisional Conference at the Pi, as President; Frank Schneider '87 as Vice President; Mike York '87 as Treasurer; Tim Wills '88 as Secretary, and Elisa Barney '88 as House Manager. Other major officers include Frank McMullen '87 as Steward, Stephen Garner '88 as Rush Chairman, and Pat Fay '87 as Social Chairman. We are all looking forward to a fine year.

The semester began for us with an overhaul of the house interior paint and carpeting. Continuing improvements are expected at this fall's pre-semester Work Week beginning August 27. Improvements this fall will include the kitchen and bathrooms.

During the semester three new brothers were initiated: Gary Curzi, Brian Primeau and Mike Wilcox, all from the class of '89. We have two new pledges, Lynette Gelinas and Melody Iffland, both also from the class of '89.

Over the course of the year about a half dozen study sessions were held preceding freshman tests (Math, Chemistry, and Physics). Elisa Barney '88 organized many of these, and two of our distinguished alumni, Mike Kendra '85H and George Williams '82H, gave us immense help in the fields of Chemistry and Physics respectively. We feel that these sessions have enhanced rush by showing our prospectives that Epsilon Iota cares about academics.

With our plans for a new house having been put on hold, there will be six brothers living in our old house this coming fall. They are Lynette Gelinas '89, Elisa Barney '88, Bryan Basham '87, Frank McMullen '87, Pat Fay '87, and Reuben Hull '87. We are still working to secure Epsilon Iota permanent housing.

> Elisa H. Barney '88 Alumni Secretary

PHI BETA **College of William and Mary** 1984

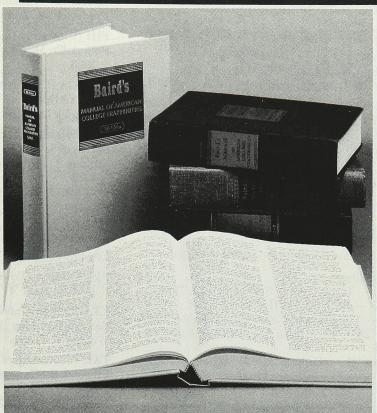

The spring semester for the Phi Beta was an eventful one. It began with a successful formal rush where we gained fourteen new pledges - a substantial increase for our small Chapter. At the end of February we hosted the Divisional Converence, which members from the Eta, Tau, Lambda, Delta, and Chi Delta attended. It was great meeting brothers from the other Chapters and I feel that we, as a Chapter, benefited greatly. We gained the perspective of what being a part of an International Fraternity real. means

A month later we welcomed two broth ers from the Eta and our two Field D rectors for our initiation ceremony o March 21. All fourteen of our pledge initiated that night and we were excite to welcome them as brothers. The fo lowing night we held a semi-formal dance where everyone had a good time.

In the middle of March the Colleg administration notified us that they ha approved our proposal for College hou ing and offered us one of the units in th fraternity complex. The rest of the se mester we planned the type of furnisl ings we wanted in the house and how finance them. We held an alumni recept tion in mid-April and held a pizza raff to raise money. Everything is looking good for the Phi Beta, and we are looking forward to moving into our house in Au gust.
