158^{TH} CONVENTION

Garnet and Gold in the Emerald City

By Wyatt Matthews, Theta Theta '01

he Puget Sound rang with the songs of Psi Upsilon June 28th through July 1st, when the Theta Theta and Beta Kappa chapters of the University of Washington and Washington State University hosted the 158th Psi Upsilon Convention.

A Psi Upsilon "Convention" includes a wide array of activities, some legislative, some administrative, and some social. The first day of activities included meetings of The Psi Upsilon Foundation's nominating committee, a meeting of the Executive Council, the annual meeting of the Alumni Advisory Board and a welcome reception for the gathering delegates and their guests. The Convention was headquartered in the DoubleTree Hotel Bellevue.

The 2001 Leadership Institute sessions began Friday, June 29th with diversity workshops led by Executive Council president Richard A. Rasmussen, Upsilon '72. "Understanding Diversity and Creating Community" is a program developed by the NCAA Minority Interests and Opportunities Committee. Rasmussen has been the liaison to this group via the NCAA Committee on Women's Athletics and also worked on the focus group that developed the program. It has been used on college campuses around the country and has included student athletes, coaches, faculty, and administrators, even college presidents, as participants.

"I felt the program was well received," said Dick. "We certainly had some lively discussions and interesting exchanges within the small groups. One of the things that often happens in this work-

shop is that people get to know each other on a deeper level and develop a greater sense of trust and shared experience with each other. It can be an excellent team-building experience as well as the start of a personal journey around diversity. I believe this was the case with the Leadership Institute workshop as well."

The brothers present shared testimony of the issues that their respective chapters have been facing. One delegate said that his chapter was dealing with being presently all white and the undergraduate next to him mentioned that he had an openly gay brother living in the house. At one point Jared Tannebaum, Epsilon Iota '02, a potential symbol of diversity himself, a young Jewish man who's last name means "Christmas tree" in German, offered a poignant summary: "Diversity has nothing to do with what color you are. It is about different backgrounds and interests."

Rasmussen agreed, "Diversity has many dimensions that go beyond race and gender. One key element is simply that differences do matter. We need to celebrate the positive contributions differences can bring with them."

The chapter presidents of the Theta Theta and Beta Kappa chapters called the 158th Convention to order on Friday afternoon. Side by side introductions from archons Brian Jensen, Theta Theta '02, and Jeff Jaeger, Beta Kappa, '02, included some playful stabs, Jensen making note of the University of Washington's dominance in football and Jaeger retorting with mention of the Beta Kappa chapter's superior grades.

That evening delegates took buses to the Theta Theta chapter house for a barbecue hosted by the Theta Theta and Beta Kappa chapters. The barbecue was prepared by Russell Hardtwig, the

Theta Theta cook who is affectionately known as "Twig." His chef's hat, beard, and devious smile can be seen on upwards of fifteen years worth of composite pictures as one ventures up the back stairway of the chapter house.

The delegates and guests toured the newly renovated, sixtyperson, English Tudor house. Bebb and Gould, famed architects of the University of Washington's church-like Suzzalo Library, built the house in 1925. One not-to-be-missed attraction was the newly reconstructed library, which had special meaning to the Theta Theta who owned the largest fraternity library on the west coast at one point in its history. Theta Theta alumnus and Executive Council Member, Thomas T. Allan IV, '89, spearheaded the project with a warrior's fervor, bringing the modest library to its current impressive state. Undergraduates at the Theta Theta claimed to have caught him on a daily basis holed up in the library at odd hours, obsessively placing books. Witnessing him carrying tools up to the library, still in his suit and tie from the office, started rumors that Tom had even attempted to re-wire the room single-handedly in the absence of an electrician.

Saturday's cruise to Tillicum Village on Blake Island offered fantastic scenery of the Puget Sound in sunny weather. The two Convention mementos offered at registration were yellow rain ponchos and white t-shirts. Fortunately the Convention t-shirt was the more sensible attire for the trip.

Blake Island, which became a state park in 1959, enhances visitors' appreciation and respect for the Pacific Northwest, its people, rich history and natural environment, while providing an outstanding dining and cultural experience. Some of the boat passengers were skeptical when a Caucasian boy in Native American garb greeted the party at the dock but the salmon bake was an impressive event, accompanied by authentic American Indian art and dancing.

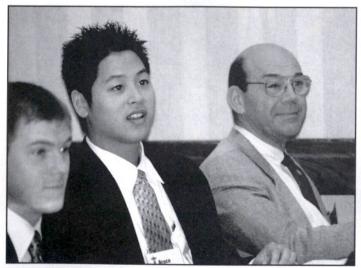

On Sunday, the Beta Kappa (Washington State University), Phi (University of Michigan), Tau (University of Pennsylvania), Zeta (Dartmouth College), Upsilon (University of Rochester), Epsilon Iota (Rensselaer Polytechnic Institute) and Lambda Sigma (Pepperdine University) chapters were awarded the

Garnet and Gold Award for Academic Excellence. The Beta Kappa also received the Owl Award for Academic Excellence, along with the Omicron (University of Illinois). The Omicron was given the Award of Distinction for exemplifying the very essence of fraternal bonds, performing in an extraordinary manner following the loss of their brother, Salvatore "Sam" Leo Biardo III, class of 2004.

"To see how much Psi Upsilon meant to Sam, and what Sam meant to all of us," said Tom Fox, Omicron '00, Chapter Leadership Consultant at the International Office, "was unlike any other experience involving brotherhood that I've ever known."

The 1833 Club Luncheon on Saturday afternoon recognized undergraduates who have already begun to support Psi Upsilon through contributions to the Annual Fund. After lunch, the group took a trip to Pike Place Market and Seattle Center. A number of the brothers met for seafood overlooking the piers while others vied for a better view from the Space Needle.

Sunday evening's banquet was a laudable send off with songs led by William C. Toepel, Theta Theta '51. Brother Bill still commits himself to leading his chapter in weekly song practice during the winter and spring.

Brother Robert H. Philip, Theta Theta '71, was recognized with the Distinguished Alumni Service Award for his dedication to Psi Upsilon as president of the Theta Theta Association, carrying the chapter on his back during its times of struggle, and allowing many of it's alumni to devote their efforts to the business of the International Fraternity.

Following the Convention banquet many delegates found their way back to the Theta Theta. There they spent a long night conversing around the pool table downstairs in "A.P.'s," a room named for the Theta's patron saint Alfonso Payne Sawyer, Beta 1880.

"We didn't have to come thousands of miles to the Convention like Rensselaer did this year," said Luca Smith, Theta Theta '04 speaking of the seven Epsilon Iota delegates who drove out from New York in an old diesel Mercedes. Smith just finished his freshman year at the University of Washington. "Figuratively speaking though," said Luca, "in my past year here, Psi U has taken me thousands and thousands of miles beyond my former self. I was glad to be a representative. I only knew one toe and the Convention gave me a chance to see the whole foot." •

Heraldic Tradition Endures

ost fraternities have only one coat-of-arms used by the general Fraternity, with no special symbols for the individual chapters. Only Psi Upsilon has a system of employing a coat-of-arms for the International Fraternity and a similar yet distinctive device for each chapter. Psi Upsilon's system involves three primary features: (1) identity of crest; (2) mottoes framed on a uniform plan; and (3) shields, each combining in accordance with a carefully arranged schedule, the principle emblems of the Fraternity (the letters and

In recent years Murray L. Eskenazi, Lambda '56 has been the artist and creative mind behind chapter coat-of-arms. During a summer internship at the International Office, Jonathan M. Foundation Directors Thanked for Service; New Directors Elected

FROM THE **FOUNDATION**

n order to encourage new participation on the board and to generate new ideas and energy, The Psi Upsilon Foundation established term limits for its individual directors. Newly elected directors will serve a maximum of six years. At the annual meeting of Foundation directors held in Seattle, the following brothers were thanked for their loyal service as their terms expired:

Brother Eldred A. Halsey, Jr., Delta '56, served the Foundation as its vice president. He continues to be active in the Challenges & Choices program, which facilitates chapter retreats at many Psi Upsilon chapters.

Brother John E. Becker, II, Psi '61 was instrumental in increasing donations to the Foundation through his contacts with many brothers to thank them for their donations to the Annual Fund. Brother Becker is president of the Psi chapter's alumni organization.

Brother David A. B. Brown, Epsilon Phi '66 served for a number of years as the Foundation treasurer. He recruits new board members, encourages more brothers to participate in the Annual Fund, and will remain as a member of the Foundation Scholarship Committee. Brother Brown is a life member of the Executive Council.

Brother Henry B. Poor, Gamma '39 will continue his work as chairman of the Scholarship Committee, his Ambassador Program, and the Challenges and Choices program.

Brother Mark A. Williams, Phi '76 has been a Foundation director since 1992 in addition to serving as the executive director of the Foundation and Fraternity.

Others continuing their service on the Foundation board are Bradley R. Corner, Omicron '72, Evan Terry, Epsilon Phi '93, George E. Wilson, Delta '61, George O. Williams, Epsilon Iota '79 and past presidents Forrest G. Weeks, Tau '52 and Robert L. Kaiser, Zeta '39.

This year the Foundation will work to recruit new directors to its board, to increase participation in the Annual Fund and in its planned giving society, The Schoepflin Society, and to develop a plan for capital fund raising. •

Psi Upsilon Risk Management Standards

he following is the Risk Management Policy of the Psi Upsilon Fraternity, unanimously adopted and enacted by the Executive Council and the 145th Convention on August 25, 1988. This policy applies to all members, all chapters, and all alumni groups.

Alcohol and Drugs

- · The possession, sale, use, or consumption of alcoholic beverages, while on chapter premises or during a fraternity event, in any situation sponsored or endorsed by the chapter, or in any event an observer would associate with the fraternity, must be in compliance with any and all applicable laws of the nation, state, province, county, city, and institution of higher education, and must comply with either the BYOB or Third Party Vendor Guidelines.
- · No alcoholic beverages may be purchased through chapter funds nor may the purchase of same for members or guests be undertaken or coordinated by any member in the name of or on behalf of the chapter. The purchase or use of a bulk quantity or common sources of such alcoholic beverages, i.e., kegs or cases, is prohibited.
- · Open parties, meaning those with unrestricted access by non-members of the fraternity, without specific invitation, where alcohol is present, shall be prohibited.

- · No members, collectively or individually, shall purchase for, serve to, or sell alcoholic beverages to any minor (i.e., those under legal "drinking
- The possession, sale, or use of any illegal drugs or controlled substances while on chapter premises or during a fraternity event, or at any event that an observer would associate with the fraternity, is strictly forbidden.
- · No chapter may cosponsor an event with an alcohol distributor, charitable organization, or tavern (tavern defined as an establishment generating more than half of annual gross sales from alcohol) where alcohol is given away, sold, or otherwise provided to those present.
- No chapter may co-sponsor or co-finance a function where alcohol is purchased by any of the host chapters, groups, or organizations.
- · All rush activities associated with any chapter will be dry rush functions.
- · No member shall permit, tolerate, encourage, or participate in "drinking games."
- · No alcohol shall be present at any pledge/associate member/novice program, activity or ritual of the chapter.

Hazing

· No chapter, colony, student or alumnus shall conduct nor condone hazing activities. Hazing activities are defined as:

"Any action taken or situation created, intentionally, whether on or off fraternity premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Such activities may include but are not limited to the following: use of alcohol; paddling in any form; creation of excessive fatigue; physical and psychological shocks; quests, treasure hunts, scavenger hunts, road trips or any other such activities carried on outside or inside of the confines of the chapter house; wearing of public apparel which is conspicuous and not normally in good taste; engaging in public stunts and buffoonery; morally degrading or humiliating games and activities; and any other activities which are not consistent with academic achievement, fraternal law, ritual, or policy, or the regulations and policies of the educational institution or applicable state law."

Sexual Abuse and Harassment

· The fraternity will not tolerate or condone any form of sexually abusive behavior

on the part of its members, whether physical, mental, or emotional. This is to include any actions which are demeaning to women or men including, but not limited to date rape, gang rape, or verbal harassment.

Fire, Health, and Safety

- · All chapter houses should meet all local fire and health codes and standards.
- · All chapters should have posted by common phones emergency numbers for fire, police, and ambulance, and should have posted evacuation routes on the back of the door of each sleeping room.
- · All chapters should comply with engineering recommendations as reported by the insurance company.
- · The possession and/or use of firearms or explosive devices of any kind within the confines and premises of the chapter house is expressly forbidden.

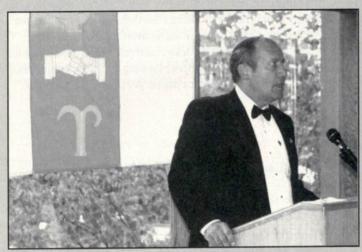

Education

 Each chapter shall annually instruct its students and alumni in these risk management standards. Additionally, all student and alumni members shall annually receive a copy of the Psi Upsilon Risk Management Standards. •

SCHOLARSHIP RECIPIENTS

21 Brothers Receive Foundation Grants

Scholarships Awarded for 2001-2002

he Psi Upsilon Foundation, Inc. is pleased to announce the twenty-one scholarships awarded for the 2001-2002 academic year. Selection of recipients is based on demonstrated achievement in the pursuit of intellectual, social and moral excellence. Since the scholarship program awarded its first grant of \$30 in 1959, the Foundation has provided more than \$500,000 to help defray the educational expenses of members. A committee of volunteers, chaired by Henry B. Poor, Gamma '39/Delta/Lambda/Tau devotes countless hours each year to reviewing applications and determining qualified recipients. Grants range in value from \$500 to \$2500.

Members can endow a scholarship in their name or in honor or memory of another brother with a designated gift of \$10,000 or more. Applications for scholarships for the next academic year will be available by December 1. Brothers planning to apply should plan ahead to secure the necessary recommendations from a faculty member, a Psi U alumnus and their chapter president. All applications must be completed by March 1, 2002. For details visit www.psiu.org or call 800-394-1833.

University of California Flag Flies to Honor Chapter

gift to the Psi Upsilon Foundation from Gilman B. Haynes, Epsilon '45 and Charles W. Hammond, Epsilon '45 serves as an endowment to have the flag of the University of California at Berkeley flown in Heritage Square in honor of the Epsilon chapter. Brother Haynes writes, "We represent the nineteen men in the class of 1945 at the Epsilon. Through the wars and time many of our classmates have fallen."

Nineteen flags fly in Heritage Square representing the Delta, Gamma, Zeta, Lambda, Kappa, Psi, Upsilon, Phi, Omega, Pi, Tau, Mu, Rho, Epsilon, Omicron, Epsilon Phi, Nu Alpha, Epsilon Iota and Beta Kappa chapters.

Flags may be permanently endowed with a gift of \$800 to the Psi Upsilon Foundation. Contact Mark A Williams at 800-394-1833 or maw@psiu.org for more information. ◆

2001 Tax Reform News

On June 7, 2001, President Bush signed the Economic Growth and Tax Relief Reconciliation Act of 2001. Although this has been a year of great debate over our tax system, in the end it seems that even though many things have changed, nothing is really all that different. Most of the tax law changes made this year, both large and small, are phased in over a number of years. How much these changes will affect you will depend upon your circumstances in the years to come.

· Death of the estate tax The top estate tax rate was reduced to 50 percent, and the 5 percent surcharge on large estates was eliminated, effective December 31, 2001. Estate tax rates will gradually decrease until 2010, when the tax is repealed altogether.

· Increase in Unified Credit amount

The amount you can pass tax-free to a beneficiary at your death (Unified Credit) increases from \$1 million in 2001 to \$2 million by 2006.

· Carryover basis for inherited property

Beginning with the repeal of the estate tax in 2010, inherited property will have a "carryover basis." This means that when you sell inherited property you will owe capital from the original date of acquisition (rather than from the date of inheritance, as is currently the case).

Now is a good time to review recognizes those who have your estate plans. With the repeal of the estate taxes in 2010, the biggest mistake people can make is to think that they do not need to plan for the distribution of their assets. When reviewing your will or estate plan, please consider

including The Psi Upsilon Foundation as one of the charities you intend to support.

To include Psi Upsilon in your will, the following language should be used:

I give and bequeath to the Psi Upsilon Foundation, Inc. (Federal Tax ID#05-6013135) a not-for-profit 501(c)3 Rhode Island Corporation

% of my residuary estate (or the sum of) to be used by the gains taxes on all appreciation Foundation in fulfillment of its educational purposes as the Foundation board of Directors shall determine.

> The Schoepflin Society indicated their estate plans include a bequest to the Psi Upsilon Foundation. They have signed a statement of intent or have filed a copy of the relevant portion of their estate document with the Foundation. They include:

John E. Boccaccio, Φ '75 David A. B. Brown, ΕΦ '66 The Estate of A. Price Gehrke, П '43-Т John Gray, Ψ'37 Charles M. Hall, NA '71-FT James E. Heerin Jr., T'58 Jack P. Hedrick, Φ '28 Frederick M. IN **MEMORIAM**

"With sore and stricken hearts we mourn, today a brother fell..."

"In Memoriam" includes brothers whose deaths were reported between March 16 and August 16, 2001.

Born on Good Friday, March 31. 1972 Clarence Wilbert Acox III. Theta

Theta '96 was the only child of Clarence W. Acox, Jr. and Catherine Richeau Acox. He died on December 30, 2000 at the age of 28.

After graduation from Garfield High School in Seattle, he spent a short time in the Navy, attended Bellevue Community College, Jackson State University and the University of Washington, where he studied meteorology and Black Studies.

Brother Acox played piano, electric keyboard synthesizer and trombone. He wrote and recorded CDs that are still sold in record stores in Chicago, Miami and San Francisco. He was a faithful member and soloist in the Chapel Choir for many years and was baptized at the Mt. Zion Baptist Church in Seattle, Wash.

He enjoyed Gospel and House music, a blend of disco and funk with a gospel influence. At the age of five, he was a Count Basie fan and knew almost every college fight song. He loved college football, especially the Huskies.

Brother Acox was fascinated with the weather and wanted to be a meteorologist. He worked at the National Weather Station

in Seattle. He was an avid reader and spent hours pouring over the Holy Scriptures in search of messages of hope, truth and inspiration.

E. Malcolm "Tex" Anderson Jr., Iota '41 died October 19. 1999. He was 81 and a resident of Kerrville, Tex. Brother Anderson played football for one year at Kenyon. In 1941, he moved with his family to Medina, Texas, where he joined his mother in establishing the A Bar Ranch, raising registered Hereford cattle and sheep. He was a pilot, flying his private plane for business and leading "All Texas Air Tours" for most of its forty-six years in business. He was responsible for introducing the value of airstrips to small towns throughout the state. As president of the International Flying Farmers, Anderson was instrumental in overseeing the building of their headquarters at the Wichita International Airport. Tex is survived by his wife, Betty, a daughter, and five sons.

Dexter James Anderson, Beta Beta '37 of Marblehead, Mass. and Naples Fla., died on May 3, 2000, at the age of 84. He graduated from high school in Marblehead, Mass. and attended Bates College before matriculating with the class of 1937 at Trinity. During World War II, he served as a lieuten-

ant commander in the Navy. He Barney Inc., a member of the had been employed as a manufacturer's representative. He was a member of the Eastern Yacht Club, and the Marblehead Historical Society. Among his survivors are his wife, Helen O'Neill Anderson, and two daughters.

Sam Leo Biardo. Omicron '04, of Park Ridge, IL died on April 22 after

repeated heart attacks and complications due to heart failure. He had been diagnosed with congenital heart defects in February. Brother Biardo was 19 years old and was a James Scholar Freshman at the University of Illinois. Biardo underwent multiple surgeries and received a pacemaker implant. He had planned to return to college in the fall semester. A 2000 graduate of Maine South High School, he was an excellent student with a passion for math. He excelled in football, soccer, rockclimbing, ultimate Frisbee and diving. He is survived by his parents, Sam and Mary, and a brother.

Elwin R. Brown Jr, Theta '58 died on July 20, 2001 in Spring Hill, Fla. Formerly of Elmira, NY, he was a stockbroker with Salomon Smith

Rotary Club, Elmira Country Club, Arctic league, and Fur, Fin and Feather. Brother Brown was an avid golfer and fisherman. He was a member of the Lake Street Presbyterian Church in Elmira. Brown is survived by his wife, Marian, two sons and a daughter.

Joseph Epes Brown, Kappa '44 died on September 19, 2000, in Stephensville, Mont. Born on September 9, 1920, in Ridgefield, Conn., graduated from the Asheville School in North Carolina before attending Bowdoin from 1940 to 1942. During World War II he was drafted and completed three years of civilian public service. In 1946 he transferred to Haverford College and was graduated in 1947. He lived with Black Elk, a Lakota Sioux holy man, and his family on the Pine Ridge Indian Reservation in the late 1940s, was adopted by Black Elk and given the Sioux name "Chanumpa Yuha Mani" (He Who Walks with the Sacred Pipe). He recorded Black Elk's account of the seven rites of the Oglala Sioux and was the author of the book Sacred Pipe, a record of religious expression among the Plains Indians. He was also the author of The Spiritual Legacy of the American Indian; Animals of the Soul: Scared Animals of the Oglala Sioux;

and Teaching Spirits: Understanding Native American Religious Traditions.

Dr. Brown received a master of fine arts in anthropology and history of religion from the University of Stockholm in Sweden in 1970. He taught at Verde Valley School in Sedona, Ariz, and at Prescott College in Prescott, Ariz. In 1970 he created the first Native American religious studies program at Indiana University, and from 1972 until his retirement taught, at the University of Montana. He was a contributing editor to a number of publications and was frequently asked to testify for Native American tribes in court cases in defense of the Freedom of Religion Act. He is survived by his wife, Elenita Roulet Brown, whom he married in 1952, a son, and three daughters.

Alan W. Day, Eta '53 of Naples, Fla., passed away August 9, 2000. He was a retired vice president of Keystone Coca-Cola Co., Wilkes Barre, Penn. Richard Quinn Devine, Psi '43 an attorney and business owner was born in Norwich. NY on December 14, 1921. The younger son of George J., a funeral director, and Eva Quinn Devine, he was graduated in 1939 from Norwich High School. Known as the "radio wizard" he accelerated his studies to acquire his degree in January 1943, then went on active duty with the U.S. Army, was commissioned as an officer, and served in the Quarter-master Corps as a first lieutenant through the end of World War II.

After the war, he entered Albany Law School, where he earned his LL.B degree cum laude in 1949. Admitted to the bar that year, he was initially employed as a lawyer by the U.S. Departments of Labor and Agriculture in Washington, D.C. In 1953, he returned to Norwich to establish his practice in association with Hubert L. Brown Law Offices. In 1958, he became a partner in the firm, which eventually merged with other firms in neighboring towns to form several offices. Beginning in 1960 he specialized in real estate and corporate law, as well as wills and probate.

In 1958, Brother Devine became associated with his father's business, the Devine Funeral Home, as a licensed funeral director. In addition, he owned and operated the Hamilton House vending machine business, and owned an apartment building. At the time of his death; he was licensed as an auctioneer, real estate broker, and title insurance agent.

Devine was a past president of the Chenango County Bar Association and a fellow of the College of Law Practice Management. He belonged to state and national bar association committees and authored articles in professional journals on the management of law practices. He was also a seasoned world traveler, often in connection with the People to People International Ambassador Program. A former member of the Norwich Board of Education and trustee of the United Methodist Homes, he was a past president of the Chenango County Historical Society and the Norwich Rotary Club. He was also a devoted communicant of St. Bartholomew's Roman Catholic Church and a member of the Knights of Columbus.

Brother Devine collected stamps, coins, books, antiques and art. He was a bird enthusiast, an avid gardener, breeder of Texas Longhorns and a member of the American Dowsers Association. For exercise, he began every day, rain, snow, or shine, with a brisk walk around the neighborhood. He also enjoyed working out on the Nautilus machines at the local YMCA and was a proud member of the 70-plus Ski Club.

Three daughters sister survive him. His wife, Jane Gallup, whom he had married in 1950, predeceased him in 1993.

William Smith Muncy, Kappa '38 died on February 3, 2000, in East Providence, R.I. Born on June 9, 1914, in Providence, he prepared for college at Worcester Academy in Massachusetts and became a member of Psi Upsilon Fraternity at Bowdoin, which he attended from 1934 to 1936. He was graduated from the Massachusetts School of Optometry in 1939 and began his practice in Providence. During World War II he served in the U.S. Navy from 1942 to 1945, attaining the rank of pharmacist's mate second class and serving on the U.S.S. Bennett. After the war he returned to the practice of optometry in Providence. He retired in 1979. He was a member of the sons of the American Revolution and a 32nd degree Mason. Surviving are his wife, Eileen Hird Muncy, whom he married in 1940; a daughter and a son.

Forbes magazine listed Eduard Baruch, Lambda '30, among what it called "The Incurables-men who so love being entrepreneurs

that even wealth doesn't cure them of the itch."

Raised in France and sent to study in Switzerland, Baruch returned to his birthplace in New York to study law at Columbia where he joined the Lambda chapter in 1927. Baruch, 93, lives in western Connecticut and spends the winter months in Florida.

Brother Baruch is famed as the founder of Heli-Coil Company. The heli-coil screw was as invaluable to the evolution of aviation as DNA was to evolution. The screw, engineered by Baruch and his team in a garage, is essentially a spring-wrapped screw, a

design that can double the strength of the threads.

Using the heli-coil nearly any item can be held together using fewer screws. This has been applied to an infinite list of inventions, from the vacuum cleaner to NASA's space shuttles.

Its effectiveness in lightening aircraft assisted America's war efforts during WWII. Baruch received the Certificate of Special Congressional Recognition and is listed in both Who's Who in America and Who's Who International.

Heli-Coil Co. set up shop in Danbury, CT in 1950, providing the local labor force with an

alternative to working in the hat factories where many were suffering from exposure to mercury. Baruch later served as the Industrial Commissioner for the state of Connecticut, founded the Candlewood Lake Marine Patrol, and was a VP and heavy contributor to the Danbury Hospital, helping the infant care unit get on its feet.

His wife, Dorothy Baruch was a writer and leading fashion model in New York where the two met. His son. Hurd Baruch, Psi '57, named for his wife's maiden name, joined Psi U at Hamilton.

semester and Bill in the spring 2001 semester.

The Omicron continues to participate in intramural basketball, volleyball, softball and broomball.

The chapter participated in philanthropy projects including the Delta Zeta "Crazee Bowl," Phi Mu's "Broom Ball," AOPi's "Run for the Roses," Sigma Alpha Mu's "Bounce for the Beats," and Pi Beta Phi's "Arrow Games."

The chapter GPA improved from 2.7 in the fall semester to a 3.0 in spring and jumped 14 places in our ranking among other fraternities on campus.

During the spring semester the chapter lost a dear brother and friend, Sam Biardo '04, to a heart condition. The camaraderie of the Omicron allowed the chapter to stick together to watch out and care for one another. The whole chapter attended Brother Biardo's wake and funeral in Park Ridge, IL. His parents requested that they be able to spread some of his ashes on the chapter house's front lawn. The brothers were honored by this request and incorporated it into the Fallen Brother Ceremony. Sam's parents accepted donations at his wake for the development

of a Psi Upsilon Foundation scholarship for the Omicron chapter in his memory. Chapter president, Matthew R. DalSanto '02 writes, "We all are very grateful of Sam's parents gift to us. Sam will always be with us. He taught us all so much in the short time we had with him."

The Omicron brothers plan to do philanthropic work in memory of Sam to benefit organ donation or for heart research. Sam's parents will be involved as this project develops.

The chapter earned honorable mention in the Atius-Sachem (the Mom's Day song and dance show) show.

Spring 2001 graduates include: John Acton, engineering; Grant Alsman, computer science; Jon Drew; Andrew Gaspar, biology; Mark Hoehne, engineering; Trey Meers, history; Christopher Monroe, engineering; and Lucas Ross, finance.

Justin Clark '01 won the "Outstanding Senior Award" at the Greek Oscars sponsored by the Interfraternity Council, Panhellenic Council, and Black Greek Council. Clark, whose degree is in engineering mechanics, works for Accenture in Chicago.

Grant Bennett Alsman '01 earned a B.S. in computer science and plans to move to Chicago where he will be doing web development for Coolsavings.com.

Loren C. Andersen '92 is working as a web development project manager for a marketing communications agency in Chicago. He and his wife Holle welcomed their

first child in July.

Theta Theta

University of Washington The chapter congratulates Lee E. Hoover Jr. '02 and his wife Avery, who were married in early June. At the annual Beachcombers event in Ocean Shores, WA, Drew Hill '01 proposed to his long time sweetheart Tracie. The undergraduate brothers thank the local alumni for their hard work and contributions toward completion of the library renovation project. The chapter enjoyed welcoming all brothers

from across the continent who traveled to Seattle for the Convention.

Wyatt Matthews '01 worked at the Psi Upsilon International Office as an intern doing research, writing and assisting with fraternity publications.

Christian Lee Werner '99 was promoted to captain in February. He is now

attending Armor Officer's Career Course at Ft. Knox, KY and will return to Germany upon completion.

Driven to Recove

Editor's Note: Sam Schmidt was the founding president of Lambda Omega Sigma, a local fraternity deeply committed to community service. In 1998, Lambda Omega Sigma became the Lambda Sigma chapter of Psi Upsilon Fraternity.

he impressive bronze trophy signifying the only pole position Sam Schmidt, Lambda Sigma '86, won in his three-year Indy Racing League career is the first item visitors notice when they walk into the fover of his upscale Green Valley home.

In addition to serving as a piece of art, the stunning replica of the Las Vegas Motor Speedway has proven to be something of a

> motivational tool for the 37-year-old Schmidt, who was paralyzed from the chest down during a testing accident in Orlando, Fla., in January 2000.

Instead of relegating his racing memorabilia to a storage closet, reminders of the sport are scattered throughout Schmidt's home in the form of trophies, artwork, photographs and magazines.

Even his candy-apple red motorized wheelchair bears racing-related decals and the number "99" that adorned the car he drove to victory in the Vegas.com 500 at Las Vegas Motor Speedway in September 1999.

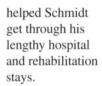

Since the accident, Schmidt is still on the track and actively involved in racing.

In the [year and a half] since his life was turned upside down when his car spun and backed into the Turn 2 wall at Walt Disney World Speedway, Schmidt credits his family, friends, fans and racing for motivating him to fight through two surgeries and four-to-six hours of rehabilitative therapy, six days a week.

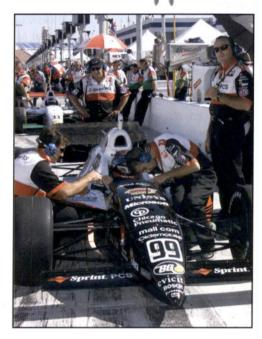

"It's a lot harder work than driving a race car," Schmidt said of his exhaustive rehab program.

Having the love and support of his family, including wife Sheila, [4]-year-old daughter Savannah and [2-year]-old son Spencer,

"Spencer was six-months-old and Savannah was two-and-ahalf (at the time of the accident) and every morning they would come running in and jump on the bed and it was just unconditional love," Schmidt said. "It didn't make any

difference to them that I was hurt; I was still their dad. That was a pretty big motivating factor for me."

Schmidt also relied on the experience he gained growing up with a paralyzed parent; his father, Marv, was partially paralyzed in an off-road racing accident when Schmidt was 10.

"My dad was paralyzed racing 25 years ago," Schmidt said. "Going through all of that growing up, it never affected me as a kid looking at my dad; I never thought he was handicapped. I saw how he worked through it and adapted and went on with life so I think, inherently, I just knew that's what we would have to do.

"I can't say that I've never thought 'Why me?' or 'What's the purpose behind this?' or questioned why it happened — you'd be stupid if you didn't — but at the same time, I haven't had a whole lot of time to think about that, either."

Since the accident, Schmidt has regained some movement in his shoulders but continues to have no feeling or movement below his mid-chest as the result of a pair of fractured vertebra high in his spinal cord. But the lack of a rapid recovery hasn't dampened Schmidt's optimism.

"It doesn't seem to be enough to keep me satisfied but the biggest accomplishment has just been my health," he said. "Typically, with the level of the injury and the severity of the injury, somebody in my situation would have been back in the hospital at least two times in the first year for some type of pressure sore or some type of internal failure or malfunction.

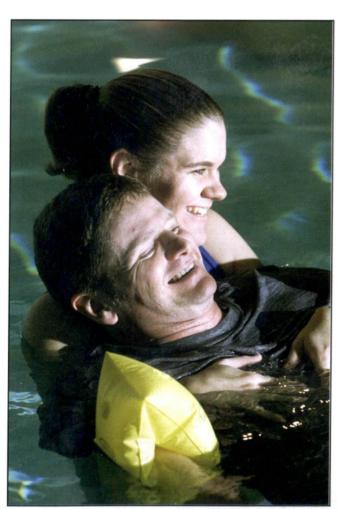

"That's the biggest accomplishment, just staying in really good shape and feeling really good and not getting sick. I've got more movement in my shoulders and more strength in my upper body than I had but something real measurable like being able to move my hands or my fingers or my toes or something — what I'm looking for as far as progress — hasn't happened yet."

Because Schmidt's spinal cord was not severed — which would have been the worst-case scenario — his doctors have not ruled out a partial or complete recovery, but have told him it could take up to three or four years from the time of the accident.

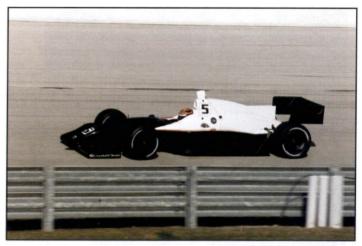

"The good news is that anything can still happen on a big scale with me — (and) walking is not out of the question," he said. "The problem is that any or none of the above can take place up to three or four years after the accident. I can go on for two years and not wiggle a finger and then all of a sudden messages start firing (between the brain and my extremities)."

Although Schmidt said he has no memory of the accident, which was caused when his car bottomed out on the race track and lost traction, it didn't take him long afterward to start thinking about returning to racing.

"I think back about it now and I remember the thoughts I had in ICU in Orlando were totally unrealistic," he said. "I don't know whether it was the sedation or what, but I was thinking that

Sam Schmidt with his personal trainer Kate, undergoing physical therapy.

On the Las Vegas Motor Speedway

it wasn't that severe and here it is January and I could still possibly make the Indy 500 (in May).

"I think because of the medicine they were giving me, there was no opportunity for anybody to sit down and look me in the eye and say, 'Listen, this is what has happened to you.' It really wasn't until I got to St. Louis and I was three or four weeks into it that I started to understand that this was a pretty bad deal."

In the [year] since Schmidt returned to his Green Valley [Nev.] home, he has formed the Sam Schmidt Foundation (www.samschmidt.org) to raise money for spinal cord research and to help those with spinal cord injuries in Southern Nevada. He also [returned to racing as a team owner in time for the Indianapolis 500

last May.]

"You asked about what drives me, what keeps me motivated (and) I think that racing is a big part of it, too," he said. "It was my dream to get to the level that I was at when I got hurt. We didn't win the

Indy 500, which was a goal, but we did win a race, we won a pole ... we did a lot of things that a lot of guys haven't done.

"I still haven't won the Indy 500 and we might have to take a chance at doing it as a team owner. I spent the last couple of months thinking what could I do that will still motivate me from a business standpoint and still allow me the time to do my rehab."

Schmidt said he has a simple reply to those who might have a difficult time understanding how he can return to the sport that left him, at least temporarily, confined to a wheelchair.

"I don't have any regrets about racing because I think this injury would be very tough for me to handle mentally if I had dove into my pool and had the same injury — I would be really depressed," he said.

"I would have a hard time keeping my head up if this would have been a backyard accident or, worse yet, I got hit by a drunk driver. The fact is, I was living my dream and because of that, I don't have any regrets related to racing."

Lambda Sigma brothers and their dates devoted their time to community service in April.
